Introduction

Purpose of the Annual Audit Plan

1. The purpose of this Annual Audit Plan is to provide an overview of the planned scope and timing of the 2024/25 audit of the Scottish Prison Service's annual report and accounts. It outlines the audit work planned to meet the audit requirements set out in [auditing standards](#) and the [Code of Audit Practice](#), including supplementary guidance.

Appointed auditor and independence

2. Michael Oliphant, of Audit Scotland, has been appointed by the Auditor General for Scotland as external auditor of the Scottish Prison Service (SPS) for the period from 2022/23 until 2026/27. The 2024/25 financial year is therefore the third of the five-year audit appointment.

3. The appointed auditor and audit team are independent of SPS in accordance with relevant ethical requirements, including the Financial Reporting Council's Ethical Standard. This standard imposes stringent rules to ensure the independence and objectivity of auditors. Audit Scotland has robust arrangements in place to ensure compliance with ethical standards. The arrangements are overseen by the Executive Director of Innovation and Quality, who serves as Audit Scotland's Ethics Partner.

4. The Ethical Standard requires auditors to communicate any relationships that may affect the independence and objectivity of the audit team. There are no such relationships pertaining to the audit of SPS to communicate.

Audit scope and responsibilities

Scope of the audit

5. The audit is performed in accordance with the Code of Audit Practice, including supplementary guidance, International Standards on Auditing (UK), and relevant legislation. These set out the requirements for the scope of the audit which includes:

- An audit of the financial statements and an opinion on whether they give a true and fair view and are free from material misstatement, including the regularity of income and expenditure.
- An opinion on statutory other information published with the financial statements in the annual report and accounts, the Performance Report, and the Governance Statement, and an opinion on the audited part of the Remuneration and Staff Report.
- Conclusions on SPS' arrangements in relation to the wider scope areas: Financial Management, Financial Sustainability, Vision, Leadership, and Governance, and Use of Resources to Improve Outcomes.
- Reporting on SPS' arrangements for securing Best Value.
- Provision of an Annual Audit Report setting out significant matters identified from the audit of the annual report and accounts and the wider scope areas specified in the Code of Audit Practice.

Responsibilities

6. The Code of Audit Practice sets out the respective responsibilities of SPS and the auditor. A summary of the key responsibilities is outlined below.

Auditor's responsibilities

7. The responsibilities of auditors in the public sector are established in the Public Finance and Accountability (Scotland) Act 2000. These include providing an independent opinion on the financial statements and other information reported within the annual report and accounts, and concluding on SPS' arrangements in place for the wider scope areas.

SPS responsibilities

8. SPS has primary responsibility for ensuring proper financial stewardship of public funds, compliance with relevant legislation and establishing

effective arrangements for governance, propriety and regularity that enables it to successfully deliver its objectives. The features of proper financial stewardship include:

- Establishing arrangements to ensure the proper conduct of its affairs.
- Preparation of an annual report and accounts, comprising financial statements and other information that gives a true and fair view.
- Establishing arrangements for the prevention and detection of fraud, error and irregularities, and bribery and corruption.
- Implementing arrangements to ensure its financial position is soundly based.
- Making arrangements to secure Best Value.
- Establishing an internal audit function.

Audit of the annual report and accounts

Introduction

9. The audit of the annual report and accounts is driven by materiality and the risks of material misstatement in the financial statements, with greater attention being given to the significant risks of material misstatement. This chapter outlines materiality, the significant risks of material misstatement that have been identified, and the impact these have on the planned audit procedures.

Materiality

10. The concept of materiality is applied by auditors in planning and performing an audit, and in evaluating the effect of any uncorrected misstatements on the financial statements or other information reported in the annual report and accounts.

11. Broadly, the concept of materiality is to determine whether matters identified during the audit could reasonably be expected to influence the decisions of users of the financial statements. Auditors set a monetary threshold when determining materiality, although some issues may be considered material by their nature. Therefore, materiality is ultimately a matter of the auditor's professional judgement.

12. The materiality levels determined for the audit of SPS are outlined in [Exhibit 1](#).

Exhibit 1

2024/25 Materiality levels for SPS

Materiality	SPS
Materiality – based on an assessment of the needs of users of the financial statements and the nature of SPS' operations, the benchmark used to determine materiality is gross expenditure based on the audited 2023/24 financial statements. Materiality has been set at 1.6% of the benchmark.	£7.9 million

Materiality	SPS
Performance materiality – this acts as a trigger point. If the aggregate of misstatements identified during the audit exceeds performance materiality, this could indicate that further audit procedures are required. Using professional judgement, performance materiality has been set at 71% of planning materiality.	£5.6 million
Reporting threshold – all misstatements greater than the reporting threshold will be reported.	£350,000

Source: Audit Scotland

Significant risks of material misstatement to the financial statements

13. The risk assessment process draws on the audit team's cumulative knowledge of SPS, including the nature of its operations and its significant transaction streams, the system of internal control, governance arrangements and processes, and developments that could impact on its financial reporting.

14. Based on the risk assessment process, significant risks of material misstatement to the financial statements have been identified and these are summarised in [Exhibit 2, page 8](#). These are the risks which have the greatest impact on the planned audit approach. The planned audit procedures in response to the risks are also outlined.

15. The risk assessment process is an iterative and dynamic process. The assessment of risks set out in this Annual Audit Plan and Exhibit 2 may change as more information and evidence is obtained over the course of the audit. Where such changes occur, these will be reported to SPS and those charged with governance, where relevant.

Exhibit 2**Significant risks of material misstatement to the financial statements**

Risk of material misstatement	Planned audit response
Fraud caused by management override of controls Management is in a unique position to perpetrate fraud because of management's ability to override controls that otherwise appear to be operating effectively.	The audit team will: • Evaluate the design and implementation of controls over processing journal entries. • Make inquiries of individuals involved in the financial reporting process about inappropriate or unusual activity relating to the processing of journal entries and other adjustments. • Detailed testing of journal entries. • Review accounting estimates for management bias, including a retrospective review of accounting estimates. • Evaluate significant transactions outside the normal course of business. • Substantive testing of income and expenditure transactions around the year-end to confirm they are accounted for in the correct financial year. • Substantive testing of accruals and prepayments to confirm they are accounted for correctly.
Valuation of land and buildings SPS held £1.451 billion of property, plant, and equipment (PPE) at 31 March 2024, of which £1.352 billion was land and building assets. SPS is required to value land and building assets at existing use value where an active market exists for these assets. Where there is no active market, these assets are valued on a depreciated cost replacement (DRC) basis. As a result, there is a significant degree of subjectivity in these valuations which are based on specialist assumptions, and changes in the assumptions can result in material changes to valuations.	The audit team will: • Evaluate the design and implementation of controls over the valuation process. • Review the information provided to the valuer and assess this for completeness and accuracy. • Evaluate the competence, capabilities, and objectivity of the valuer. • Obtain an understanding of management's involvement in the valuation process to assess if appropriate oversight has occurred. • Review the appropriateness of the key data and assumptions used in the 2024/25 valuation process, and challenge these where required. • Review management's assessment that the value in the balance sheet of assets not subject to a valuation process in 2024/25, is not materially different to the current value at the year-end.

Key audit matters

16. The Code of Audit Practice requires public sector auditors to communicate key audit matters. Key audit matters are those that, in the auditor's professional judgement, are of most significance to the audit of the financial statements and require most attention when performing the audit.

17. In determining key audit matters, auditors consider:

- Areas of higher or significant risk of material misstatement.
- Areas where significant judgement is required, including accounting estimates that are subject to a high degree of estimation uncertainty.
- Significant events or transactions that occurred during the year.

18. The matters determined to be key audit matters will be communicated in the Annual Audit Report. [Exhibit 2](#) outlines the significant risks of material misstatement to the financial statements that have been identified, including those that have the greatest impact on the planned audit procedures and require most attention when performing the audit.

Wider scope and Best Value

Introduction

19. Reflecting the fact that public money is involved, the Code of Audit Practice requires that public audit is planned and undertaken from a wider perspective than in the private sector. The wider scope audit set out by the Code of Audit Practice broadens the audit of the annual report and accounts to include consideration of additional aspects or risks in four wider scope areas, which are summarised below:

- **Financial Management** – this means having sound budgetary processes. Factors that can impact on SPS being able to secure sound financial management include the strength of the financial management culture, accountability, and arrangements to prevent and detect fraud, error and other irregularities, and bribery and corruption.
- **Financial Sustainability** – this means looking forward over the medium and longer term in planning the services to be delivered and how they will be delivered effectively. This is assessed by considering SPS' medium to longer term planning for service delivery.
- **Vision, Leadership and Governance** – this means having a clear vision and strategy with set priorities. This is assessed by considering the clarity of plans in place to deliver the vision and strategy and the effectiveness of the governance arrangements to support delivery.
- **Use of Resources to Improve Outcomes** – this means using resources to meet stated outcomes and improvement objectives through effective planning and working with partners and communities. This is assessed by considering SPS' arrangements for ensuring resources are deployed to improve strategic outcomes, meet the needs of service users, and deliver continuous improvement.

20. A conclusion on the effectiveness and appropriateness of arrangements SPS has in place for each of the wider scope areas will be reported in the Annual Audit Report.

Duty of Best Value

21. The [Scottish Public Finance Manual](#) (SPFM) explains that Accountable Officers have a specific responsibility to ensure that arrangements have

been made to secure Best Value. [Best Value in public services: guidance for Accountable Officers](#) is issued by Scottish Ministers and sets out their duty to ensure that arrangements are in place to secure Best Value in public services.

22. Consideration of the arrangements SPS has in place to secure Best Value will be carried out alongside the wider scope audit, and a conclusion on the arrangements in place will be reported in the Annual Audit Report.

23. Auditors may also carry out specific audit work covering the seven Best Value characteristics set out in the SPFM. The risk assessment process did not identify a need to carry out specific audit work on any of the characteristics. However, auditors are required to carry out a review of the 'fairness and equality' characteristic at least once during the audit appointment. This will be carried out later in the audit appointment.

Significant wider scope and Best Value risks

24. The risk assessment process has identified significant risks in the wider scope areas and Best Value as outlined in Exhibit 3, and this includes the planned audit procedures in response to the risks.

Exhibit 3

Significant wider scope and Best Value risks

Description of risk	Planned audit response
Financial Sustainability SPS faces a challenging financial position and this is likely to continue for the foreseeable future. Financial pressures arising from issues such as inflationary pressures, large capital projects like the construction of HMP Glasgow, the renewal of the Scottish Court Custody and Prisoner Escort Service contract and pay awards represent a significant challenge for SPS. This represents a wider scope risk for SPS.	The audit team will: • Review SPS's arrangements in place to manage its financial position. • Review any progress made in developing financially sustainable plans in the short to medium term. • Review any forecasts/budgeting work for future years.

IT Strategic Planning and Cyber Security

As part of our 2022/23 audit, we identified that there is scope for SPS to strengthen their IT Strategic Planning and cyber security arrangements. There continues to be a significant risk of cyber-attacks to public bodies.

SPS should ensure they have appropriate independent cyber accreditation (i.e. cyber essentials).

There is a risk for SPS, that a cyber-attack could significantly impact on both the finances and operation of SPS.

The audit team will:

- Consider and assess actions SPS have and plan to take to strengthen their IT Strategic Planning and Cyber Security.

Reporting arrangements, timetable and audit fee

Audit outputs

25. The outputs from the 2024/25 audit include:

- This Annual Audit Plan.
- An Independent Auditor's Report to SPS, the Auditor General for Scotland, and the Scottish Parliament setting out opinions on the annual report and accounts.
- An Annual Audit Report to SPS and the Auditor General for Scotland setting out significant matters identified from the audit of the annual report and accounts, conclusions from the wider scope and Best Value audit, and recommendations, where required.

26. The matters to be reported in the outputs will be discussed with SPS for factual accuracy before they are issued. All outputs from the audit will be published on Audit Scotland's website, apart from the Independent Auditor's Report, which is included in the audited annual report and accounts.

27. Target dates for the audit outputs are set by the Auditor General for Scotland. In setting the target dates for the audit outputs, consideration is given to the target date for approving the annual report and accounts, which is 31 August 2025 for central government agencies and non-ministerial departments.

28. The Independent Auditor's Report and Annual Audit Report are planned to be issued by the target date of 31 August 2025.

Audit timetable

29. Achieving the timetable for production of the annual report and accounts, supported by complete and accurate working papers, is critical to delivery of the audit to agreed target dates. [Exhibit 4](#) includes a timetable for the audit, which has been agreed with management. Agreed target dates will be kept under review as the audit progresses, and any changes required, and their potential impact, will be discussed with SPS and reported to those charged with governance, where required.

Exhibit 4

2024/25 audit timetable

Audit activity	SPS target date	Audit team target date	Relevant committee date
Issue of Annual Audit Plan		20 March 2025	27 March 2025
Annual report and accounts:			
• Consideration of unaudited annual report and accounts by those charged with governance	23 May 2025		23 May 2025
• Submission of unaudited annual report and accounts and all working papers to audit team	23 May 2025		
• Latest date for audit clearance meeting	14 July 2025	14 July 2025	
• Issue of draft Letter of Representation, proposed Independent Auditor's Report, and proposed Annual Audit Report		23 July 2025	30 July 2025
• Agreement of audited and unsigned annual report and accounts	23 July 2025	23 July 2025	
• Approval by those charged with governance and signing of audited annual report and accounts	30 July 2025		30 July 2025
• Signing of Independent Auditor's Report and issue of Annual Audit Report		30 July 2025	

Source: Audit Scotland

Audit fee

30. SPS' audit fee is determined in line with Audit Scotland's fee setting arrangements. The proposed audit fee for the 2024/25 audit is £119,220.

31. In setting the audit fee, it is assumed that SPS has effective governance arrangements in place and the complete annual report and accounts will be provided for audit in line with the agreed timetable. The

audit fee assumes there will be no significant changes to the planned scope of the audit. Where the audit cannot proceed as planned, for example, due to incomplete or inadequate working papers, the audit fee may need to be increased.

Other matters

Internal audit

32. SPS is responsible for establishing an internal audit function as part of an effective system of internal control. As part of the audit, the audit team will obtain an understanding of internal audit, including its nature, responsibilities, and activities.

33. While internal audit and external audit have differing roles and responsibilities, external auditors may seek to rely on the work of internal audit where it is considered appropriate. A review of internal audit's 2024/25 audit plan was carried out to identify if there were any areas where the audit team could rely on its work. The audit team concluded it will not rely on internal audit's work. However, the audit team will review internal audit's reports and assess if there is any impact on the audit.

Audit quality

34. Audit Scotland is committed to the consistent delivery of high-quality audit. Audit quality requires ongoing attention and improvement to keep pace with external and internal changes. Details of the arrangements in place for the delivery of high-quality audits is available from the [Audit Scotland website](#).

35. The International Standards on Quality Management (ISQM) applicable to Audit Scotland for 2024/25 audits are:

- ISQM (UK) 1, which deals with an audit organisation's responsibilities to design, implement, and operate a system of quality management (SoQM) for audits. Audit Scotland's SoQM consists of a variety of components, such as: governance arrangements and culture to support audit quality, compliance with ethical requirements, ensuring Audit Scotland is dedicated to high-quality audit through engagement performance and resourcing arrangements, and ensuring there are robust quality monitoring arrangements in place. Audit Scotland carries out an annual evaluation of its SoQM and has concluded it complies with this standard.
- ISQM (UK) 2 sets out arrangements for conducting engagement quality reviews, which are performed by senior management not involved in an audit, to review significant judgements and conclusions reached by the audit team, and the appropriateness of proposed audit opinions on high-risk audits.

36. To monitor quality at an individual audit level, Audit Scotland carries out internal quality reviews on a sample of audits. Additionally, the Institute of Chartered Accountants of England and Wales (ICAEW) carries out independent quality reviews on a sample of audits.

37. Actions to address deficiencies identified by internal and external quality reviews are included in a rolling Quality Improvement Action Plan, which is used to support continuous improvement. Progress with implementing planned actions is monitored on a regular basis by Audit Scotland's Quality and Ethics Committee.

38. Audit Scotland may periodically seek the views of SPS on the quality of audit services provided. The audit team would also welcome feedback at any time.
