Introduction

Purpose of the Annual Audit Plan

1. The purpose of this Annual Audit Plan is to provide an overview of the planned scope and timing of the 2025/26 audit of Historic Environment Scotland's annual report and accounts. It outlines the audit work planned to meet the audit requirements set out in [auditing standards](#) and the [Code of Audit Practice](#), including supplementary guidance.

Appointed auditor and independence

2. Lisa Duthie, Audit Director, has been appointed by the Auditor General for Scotland as external auditor of Historic Environment Scotland, for the period from 2024/25 until 2026/27.

3. Lisa and the audit team are independent of Historic Environment Scotland in accordance with relevant ethical requirements, including the Financial Reporting Council's Ethical Standard. This standard imposes stringent rules to ensure the independence and objectivity of auditors. Audit Scotland has robust arrangements in place to ensure compliance with ethical standards. The arrangements are overseen by the Executive Director of Innovation and Quality, who serves as Audit Scotland's Ethics Partner.

4. The Ethical Standard requires auditors to communicate any relationships that may affect the independence and objectivity of the audit team. There are no such relationships pertaining to the audit of Historic Environment Scotland.

Audit scope and responsibilities

Scope of the audit

5. The audit is performed in accordance with the Code of Audit Practice, including supplementary guidance, International Standards on Auditing (UK), and relevant legislation. These set out the requirements for the scope of the audit which includes:

- An audit of the financial statements and an opinion on whether they give a true and fair view and are free from material misstatement, including the regularity of income and expenditure.
- An opinion on statutory other information published with the financial statements in the annual report and accounts, namely the Performance Report and the Governance Statement, and an opinion on the audited part of the Remuneration and Staff Report.
- Conclusion on the arrangements in relation to the wider scope areas: Financial Management, Financial Sustainability, Vision, Leadership and Governance and Use of Resources to Improve Outcomes.
- Reporting on the arrangements for securing Best Value.
- Provision of an Annual Audit Report setting out significant matters identified from the audit of the annual report and accounts and the wider scope areas specified in the Code of Audit Practice.

Responsibilities

6. The Code of Audit Practice sets out the respective responsibilities of Historic Environment Scotland and the auditor. A summary of the key responsibilities is outlined below.

Auditor's responsibilities

7. The responsibilities of auditors in the public sector are established in the Public Finance and Accountability (Scotland) Act 2000. These include providing an independent opinion on the financial statements and other information reported within the annual report and accounts, and concluding on Historic Environment Scotland's arrangements in place for the wider scope areas.

Historic Environment Scotland's responsibilities

8. Historic Environment Scotland has primary responsibility for ensuring proper financial stewardship of public funds, compliance with relevant legislation and establishing effective arrangements for governance, propriety and regularity that enables it to successfully deliver its objectives. The features of proper financial stewardship include:

- Establishing arrangements to ensure the proper conduct of its affairs.
- Preparation of an annual report and accounts, comprising financial statements that give a true and fair view and other information.
- Establishing arrangements for the prevention and detection of fraud, error and irregularities, and bribery and corruption.
- Implementing arrangements to ensure its financial position is soundly based.
- Making arrangements to secure Best Value.
- Establishing an internal audit function.

Audit of the annual report and accounts

Introduction

9. The audit of the annual report and accounts is driven by materiality and the risks of material misstatement in the financial statements, with greater attention being given to the significant risks of material misstatement. This chapter outlines materiality, the significant risks of material misstatement that have been identified, and the impact these have on the planned audit procedures.

Materiality

10. The concept of materiality is applied by auditors in planning and performing an audit, and in evaluating the effect of any uncorrected misstatements on the financial statements or other information reported in the annual report and accounts.

11. Broadly, the concept of materiality is to determine whether matters identified during the audit could reasonably be expected to influence the decisions of users of the financial statements. Auditors set a monetary threshold when determining materiality, although some issues may be considered material by their nature. Therefore, materiality is ultimately a matter of the auditor's professional judgement.

12. The materiality levels determined for the audit of Historic Environment Scotland and its group are outlined in [Exhibit 1](#).

Exhibit 1

2025/26 Materiality levels for Historic Environment Scotland and its group

Materiality	Historic Environment Scotland	Group
Materiality – based on an assessment of the needs of users of the financial statements and the nature of Historic Environment Scotland's operations, the benchmark used to determine materiality is gross expenditure based on the audited 2024/25 financial statements. Materiality has been set at 2% of the benchmark.	£2.7 million	£2.8 million

Materiality	Historic Environment Scotland	Group
Performance materiality – this acts as a trigger point. If the aggregate of misstatements identified during the audit exceeds performance materiality, this could indicate that further audit procedures are required. Using professional judgement, performance materiality has been set at 70% of planning materiality.	£1.9 million	£2.1 million
Reporting threshold – all misstatements greater than the reporting threshold will be reported.	£135,000	£142,000

Source: Audit Scotland

Significant risks of material misstatement to the financial statements

13. The risk assessment process draws on the audit team’s cumulative knowledge of Historic Environment Scotland, including the nature of its operations and its significant transaction streams, the system of internal control, governance arrangements and processes, and developments that could impact on its financial reporting.

14. Based on the risk assessment process, significant risks of material misstatement to the financial statements have been identified and these are summarised in [Exhibit 2](#). These are the risks which have the greatest impact on the planned audit approach, and the planned audit procedures in response to the risks are outlined.

15. Risk assessment is an iterative and dynamic process. The assessment of risks set out in this Annual Audit Plan and Exhibit 2 may change as more information and evidence is obtained over the course of the audit. Where such changes occur, these will be reported to Historic Environment Scotland and those charged with governance, where relevant.

Exhibit 2

Significant risks of material misstatement to the financial statements

Risk of material misstatement	Planned audit response
<p>Fraud caused by management override of controls</p> <p>Management is in a unique position to perpetrate fraud because of management’s ability to override</p>	<p>The audit team will:</p> <ul style="list-style-type: none"> • Evaluate the design and implementation of controls over journal entry processing. • Make inquiries of individuals involved in the financial reporting process about inappropriate

Risk of material misstatement	Planned audit response
<p>controls that otherwise appear to be operating effectively.</p>	<p>or unusual activity relating to the processing of journal entries.</p> <ul style="list-style-type: none"> • Test journals entries, focusing on those that are assessed as higher risk, such as those affecting revenue and expenditure recognition around the year-end. • Substantive testing of income and expenditure transactions around the year-end to confirm they are accounted for in the correct financial year. • Assess the adequacy of controls in place for identifying and disclosing related party relationships and transactions in the financial statements. • Assess changes to the methods and underlying assumptions used to prepare accounting estimates and assess these for evidence of management bias. • Evaluate significant transactions outside the normal course of business.
<p>Fraud in revenue recognition</p> <p>In accordance with International Standard on Auditing (UK) 240, there is a presumed risk of fraud in the recognition of income.</p> <p>We have assessed that the risk relates specifically to the completeness and accuracy of commercial and trading income streams, as they comprise a high volume of low value income streams generated across multiple locations.</p> <p>There is a risk that income may be misstated, resulting in a material misstatement in the financial statements.</p>	<p>The audit team will:</p> <ul style="list-style-type: none"> • Evaluate and assess the design and implementation of key controls related to commercial income (including admissions and membership data controls). • Perform substantive analytical procedures related to commercial income. • Undertake detailed testing of the year-end reconciling difference related to control account reconciliations (between ticketing and other income and bank). • Undertake substantive analytical procedures specifically focussed on admissions and membership income.

Key audit matters

16. The Code of Audit Practice requires public sector auditors to communicate key audit matters. Key audit matters are those matters, that in the auditor's professional judgement, are of most significance to the

audit of the financial statements and require most attention when performing the audit.

17. In determining key audit matters, auditors consider:

- Areas of higher or significant risk of material misstatement.
- Areas where significant judgement is required, including accounting estimates that are subject to a high degree of estimation uncertainty.
- Significant events or transactions that occurred during the year.

18. Key audit matters will be communicated in the Annual Audit Report. Exhibit 2 outlines the significant risks of material misstatement to the financial statements that have been identified, including those that have greatest impact on the planned audit procedures and require most attention when performing the audit.

Group audit

19. Historic Environment Scotland is part of a group and prepares group financial statements. The group is made up of two components, including Historic Environment Scotland which is the parent of the group. Risk assessment procedures have been performed on the group audit to identify if there are any risks of material misstatement to the group financial statements, or any components where audit procedures are required for the purposes of the group audit. The outcome of the risk assessment procedures on the group audit are outlined in [Exhibit 3](#).

Exhibit 3

Outcome of risk assessment procedures on the group audit

Group component	Accounting treatment	Risk of material misstatement	Audit procedures required	Auditor
Historic Environment Scotland	Consolidated on a line-by-line basis	Yes – Exhibit 2	Yes – full scope audit	Audit Scotland
Historic Environment Scotland Enterprises Limited (HESe)	Consolidated on a line-by-line basis	No, but income and expenditure are material to the group financial statements	Yes – audit procedures planned on income and expenditure	Wbg

Source: Audit Scotland

20. Where audit procedures are required on a component's financial statements, and the component auditor is different to Historic Environment Scotland's appointed auditor, group audit instructions will be issued to the component auditor outlining expectations and requirements in performing these audit procedures.

Wider scope and Best Value

Introduction

21. Reflecting the fact that public money is involved, the Code of Audit Practice requires that public audit is planned and undertaken from a wider perspective than in the private sector. The wider scope audit set out by the Code of Audit Practice broadens the audit of the annual report and accounts to include consideration of additional aspects or risks in four wider scope areas, which are summarised below:

- **Financial Management** – this means having sound budgetary processes. Factors that can impact on Historic Environment Scotland being able to secure sound financial management include the strength of the financial management culture, accountability, and arrangements to prevent and detect fraud, error and other irregularities, bribery and corruption.
- **Financial Sustainability** – this means looking forward over the medium and longer term in planning the services to be delivered and how they will be delivered effectively. This is assessed by considering Historic Environment Scotland’s medium to longer-term planning for service delivery.
- **Vision, Leadership and Governance** – this means having a clear vision and strategy, with set priorities within the vision and strategy. This is assessed by considering the clarity of plans in place to deliver the vision and strategy and the effectiveness of the governance arrangements to support delivery.
- **Use of Resources to Improve Outcomes** – this means using resources to meet stated outcomes and improvement objectives through effective planning and working with partners and communities. This is assessed by considering Historic Environment Scotland’s arrangements for ensuring resources are deployed to improve strategic outcomes, meet the needs of service users, and deliver continuous improvement.

22. A conclusion on the effectiveness and appropriateness of the arrangements Historic Environment Scotland has in place for each of the wider scope areas will be reported in the Annual Audit Report.

Duty of Best Value

23. The [Scottish Public Finance Manual](#) (SPFM) explains that Accountable Officers have a specific responsibility to ensure that arrangements have

been made to secure Best Value. [Best Value in public services: guidance for Accountable Officers](#) is issued by Scottish Ministers and sets out their duty to ensure that arrangements are in place to secure Best Value in public services.

24. Consideration of the arrangements Historic Environment Scotland has in place to secure Best Value will be carried out alongside the wider scope audit, and a conclusion on the adequacy of these arrangements will be reported in the Annual Audit Report.

25. Auditors may also carry out specific audit work covering the seven Best Value themes set out in the SPFM. The risk assessment process did not identify a need to carry out specific audit work on any of the themes. In addition, auditors are required to carry out a review of the 'fairness and equality' theme at least once during the audit appointment, and this will be carried out later in the audit appointment.

Significant wider scope risks

26. Our planned work on wider scope responsibilities is risk based and proportionate. In summary, our wider scope audit will focus on the following risks:

- **Leadership and governance:** Our 2024/25 Annual Audit Report and the Auditor General's Section 22 report highlighted ongoing change and instability in the leadership of Historic Environment Scotland, presenting a risk to governance and operational effectiveness. We will monitor developments in this area, including Historic Environment Scotland's response to the independent organisational and culture review due to be concluded in May 2026.
- **Financial management:** Our 2024/25 Annual Audit Report and the Auditor General's Section 22 report described weaknesses in the use of Electronic Purchasing Cards (EPCs), expenses and hospitality expenditure. We will assess the actions taken to strengthen these controls, focussing on Historic Environment Scotland's response to the associated internal audit reviews.
- **Archive House:** Our 2024/25 Annual Audit Report and the Auditor General's Section 22 report highlighted that Historic Environment Scotland continues to incur costs that relate to the cancelled Archive House project. Internal Audit has completed a lessons learned review of the project and we will monitor how Historic Environment Scotland responds to the findings of the review, including progress towards a new long term archive storage solution.

Reporting arrangements, timetable and audit fee

Audit outputs

27. The outputs from the 2025/26 audit include:

- This Annual Audit Plan.
- An Independent Auditor's Report to Historic Environment Scotland, the Auditor General for Scotland, and the Scottish Parliament setting out opinions on the annual report and accounts.
- An Annual Audit Report to Historic Environment Scotland and the Auditor General for Scotland setting out significant matters identified from the audit of the annual report and accounts, conclusions from the wider scope and Best Value audit, recommendations, where required, and any good practice identified.

28. The matters to be reported in the outputs will be discussed with Historic Environment Scotland for factual accuracy before they are issued. All outputs from the audit will be published on [Audit Scotland's website](#), apart from the Independent Auditor's Report, which is included in the audited annual report and accounts.

29. Target dates for the audit outputs are set by the Auditor General for Scotland. In setting the target dates for the audit outputs, consideration is given to the target date for approving the annual report and accounts, which is 31 October 2026 for central government non-departmental public bodies, and other similar bodies.

30. The Independent Auditor's Report and Annual Audit Report are planned to be issued by the target date of 31 October 2026.

Audit timetable

31. Achieving the timetable for production of the annual report and accounts, supported by complete and accurate working papers, is critical to delivery of the audit to agreed target dates. [Exhibit 4](#) includes a timetable for the audit, which has been agreed with management. Agreed target dates will be kept under review as the audit progresses, and any changes required, and their potential impact, will be discussed with

Historic Environment Scotland and reported to those charged with governance, where required.

Exhibit 4

2025/26 audit timetable

Audit activity	Target date
Annual report and accounts:	
<ul style="list-style-type: none"> Submission of unaudited annual report and accounts and all working papers to audit team 	15 June 2026
<ul style="list-style-type: none"> Latest date for audit clearance meeting 	19 August 2026
<ul style="list-style-type: none"> Issue of draft Letter of Representation, proposed Independent Auditor's Report, and proposed Annual Audit Report 	26 August 2026
<ul style="list-style-type: none"> Consideration of Annual Audit Report and audited annual report and accounts by those charged with governance 	ARAC – 8 September 2026
<ul style="list-style-type: none"> Agreement of audited annual report and accounts 	ARAC – 8 September 2026
<ul style="list-style-type: none"> Approval and signing of audited annual report and accounts 	Board – 8 October 2026
<ul style="list-style-type: none"> Signing of Independent Auditor's Report and issue of Annual Audit Report 	Board – 8 October 2026

Source: Audit Scotland

Audit fee

32. Historic Environment Scotland's audit fee is determined in line with Audit Scotland's fee setting arrangements. The audit fee for the 2025/26 audit is set at £120,220 (2024/25: £115,220).

33. In setting the audit fee, it is assumed that Historic Environment Scotland has effective governance arrangements in place and the complete annual report and accounts will be provided for audit in line with

the agreed timetable. The audit fee assumes there will be no significant changes to the planned scope of the audit. Where the audit cannot proceed as planned, for example, due to incomplete or inadequate working papers, the audit fee may need to be increased.

Other matters

Internal audit

34. Historic Environment Scotland is responsible for establishing an internal audit function as part of an effective system of internal control. As part of the audit, the audit team will obtain an understanding of internal audit, including its nature, responsibilities, and activities.

35. While internal audit and external audit have differing roles and responsibilities, external auditors may seek to rely on the work of internal audit where it is considered appropriate. A review of internal audit's 2025/26 audit plan was carried out to identify if there were any areas where the audit team could rely on its work. The audit team concluded it will not place formal reliance on internal audit's work for the financial statements audit. However, the audit team will review internal audit's reports and use this to inform the ongoing risk assessment and wider scope audit conclusions.

Audit quality

36. Audit Scotland is committed to the consistent delivery of high-quality audit. Audit quality requires ongoing attention and improvement to keep pace with external and internal changes. Details of the arrangements in place for the delivery of high-quality audits is available from the [Audit Scotland website](#).

37. The International Standards on Quality Management (ISQM) applicable to Audit Scotland for 2025/26 audits are:

- ISQM (UK) 1, which deals with an audit organisation's responsibilities to design, implement, and operate a system of quality management (SoQM) for audits. Audit Scotland's SoQM consists of a variety of components, such as governance arrangements and culture to support audit quality, compliance with ethical requirements, ensuring Audit Scotland is dedicated to high-quality audit through engagement performance and resourcing arrangements, and ensuring there are robust quality monitoring arrangements in place. Audit Scotland carries out an annual evaluation of its SoQM and has concluded it complies with this standard.
- ISQM (UK) 2, which sets out arrangements for conducting engagement quality reviews, which are performed by senior management not involved in an audit, to review significant

judgements and conclusions reached by the audit team, and the appropriateness of proposed audit opinions on high-risk audits.

38. To monitor quality at an individual audit level, Audit Scotland carries out internal quality reviews on a sample of audits. Additionally, the Institute of Chartered Accountants of England and Wales (ICAEW) carries out independent quality reviews on a sample of audits.

39. Actions to address deficiencies identified by internal and external quality reviews are included in a rolling Quality Improvement Action Plan, which is used to support continuous improvement. Progress with implementing planned actions is monitored on a regular basis by Audit Scotland's Quality and Ethics Committee.

40. Audit Scotland may periodically seek the views of Historic Environment Scotland on the quality of audit services provided. The audit team would also welcome feedback at any time.
