Introduction

Purpose of the Annual Audit Plan

1. The purpose of this Annual Audit Plan is to provide an overview of the planned scope and timing of the 2025/26 audit of Lothian Valuation Joint Board's (LVJB) annual accounts. It outlines the audit work planned to meet the audit requirements set out in [auditing standards](#) and the [Code of Audit Practice](#), including supplementary guidance.

Appointed auditor and independence

2. Christopher Gardner, of Audit Scotland, has been appointed by the Accounts Commission as external auditor of LVJB for the period from 2022/23 until 2026/27. The 2025/26 financial year is therefore the fourth of the five-year audit appointment.

3. The audit team is independent of Lothian Valuation Joint Board in accordance with relevant ethical requirements, including the Financial Reporting Council's Ethical Standard. This standard imposes stringent rules to ensure the independence and objectivity of auditors. Audit Scotland has robust arrangements in place to ensure compliance with ethical standards. The arrangements are overseen by the Executive Director of Innovation and Quality, who serves as Audit Scotland's Ethics Partner.

4. The Ethical Standard requires auditors to communicate any relationships that may affect the independence and objectivity of the audit team. There are no such relationships pertaining to the audit of the Lothian Valuation Joint Board to communicate.

Audit scope and responsibilities

Scope of the audit

5. The audit is performed in accordance with the Code of Audit Practice, including supplementary guidance, International Standards on Auditing (UK), and relevant legislation. These set out the requirements for the scope of the audit which includes:

- An audit of the financial statements and an opinion on whether they give a true and fair view and are free from material misstatement.
- An opinion on statutory other information published with the financial statements in the annual accounts, namely the Management Commentary and the Annual Governance Statement.
- An opinion on the audited part of the Remuneration Report.
- Concluding on the financial sustainability of the joint board and a review of the Annual Governance Statement.
- Reporting on the Lothian Valuation Joint Board's arrangements for securing Best Value.
- Provision of an Annual Audit Report setting out significant matters identified from the audit of the annual accounts and the wider scope areas specified in the Code of Audit Practice.

Responsibilities

6. The Code of Audit Practice sets out the respective responsibilities of the joint board and the auditor. A summary of the key responsibilities is outlined below.

Auditor's responsibilities

7. The responsibilities of auditors in the public sector are established in the Local Government (Scotland) Act 1973. These include providing an independent opinion on the financial statements and other information reported within the annual accounts, and concluding on Lothian Valuation Joint Board's arrangements in place for the wider scope areas.

Lothian Valuation Joint Board's responsibilities

8. The joint board has primary responsibility for ensuring proper financial stewardship of public funds, compliance with relevant legislation and establishing effective arrangements for governance, propriety and

regularity that enables it to successfully deliver its objectives. The features of proper financial stewardship include:

- Establishing arrangements to ensure the proper conduct of its affairs.
- Preparation of annual accounts, comprising financial statements that give a true and fair view and other information.
- Establishing arrangements for the prevention and detection of fraud, error and irregularities, and bribery and corruption.
- Implementing arrangements to ensure its financial position is soundly based.
- Making arrangements to secure Best Value.
- Establishing an internal audit function.

Audit of the annual accounts

Introduction

9. The audit of the annual accounts is driven by materiality and the risks of material misstatement in the financial statements, with greater attention being given to the significant risks of material misstatement. This chapter outlines materiality, the significant risks of material misstatement that have been identified, and the impact these have on the planned audit procedures.

Materiality

10. The concept of materiality is applied by auditors in planning and performing an audit, and in evaluating the effect of any uncorrected misstatements on the financial statements or other information reported in the annual accounts.

11. Broadly, the concept of materiality is to determine whether matters identified during the audit could reasonably be expected to influence the decisions of users of the financial statements. Auditors set a monetary threshold when determining materiality, although some issues may be considered material by their nature. Therefore, materiality is ultimately a matter of the auditor's professional judgement.

12. The materiality levels determined for the audit of Lothian Valuation Joint Board are outlined in [Exhibit 1](#).

Exhibit 1

2025/26 Materiality levels

Materiality	Amount
Materiality – based on an assessment of the needs of users of the financial statements and the nature of Lothian Valuation Joint Board's operations, the benchmark used to determine materiality is gross expenditure based on the audited 2024/25 financial statements. Materiality has been set at 2% of the benchmark.	£0.143 million

Materiality	Amount
<p>Performance materiality – this acts as a trigger point. If the aggregate of misstatements identified during the audit exceeds performance materiality, this could indicate that further audit procedures are required. Using professional judgement, performance materiality has been set at 75% of planning materiality.</p>	£0.107 million
<p>Reporting threshold – all misstatements greater than the reporting threshold will be reported.</p>	£7,000

Source: Audit Scotland

Significant risks of material misstatement to the financial statements

13. The risk assessment process draws on the audit team’s cumulative knowledge of the joint board, including the nature of its operations and its significant transaction streams, the system of internal control, governance arrangements and processes, and developments that could impact on its financial reporting.

14. Based on the risk assessment process, significant risks of material misstatement to the financial statements have been identified and these are summarised in [Exhibit 2, page 8](#). These are the risks which have the greatest impact on the planned audit approach, and the planned audit procedures in response to the risks are outlined in Exhibit 2.

15. The risk assessment process is an iterative and dynamic process. The assessment of risks set out in this Annual Audit Plan and Exhibit 2 may change as more information and evidence is obtained over the course of the audit. Where such changes occur, these will be reported to management and those charged with governance, where relevant.

Exhibit 2

Significant risks of material misstatement to the financial statements

Risk of material misstatement	Planned audit response
<p>Fraud caused by management override of controls</p> <p>Management is in a unique position to perpetrate fraud because of management's ability to override controls that otherwise appear to be operating effectively.</p>	<p>The audit team will:</p> <ul style="list-style-type: none"> • Evaluate the design and implementation of controls over journal entry processing. • Make inquiries of individuals involved in the financial reporting process about inappropriate or unusual activity relating to the processing of journal entries. • Test journals entries, focusing on those that are assessed as higher risk, such as those affecting revenue and expenditure recognition around the year-end. • Evaluate significant transactions outside the normal course of business. • Assess the adequacy of controls in place for identifying and disclosing related party relationships and transactions in the financial statements. • Assess changes to the methods and underlying assumptions used to prepare accounting estimates and assess these for evidence of management bias.

Key audit matters

16. The Code of Audit Practice requires public sector auditors to communicate key audit matters. Key audit matters are those matters, that in the auditor's professional judgement, are of most significance to the audit of the financial statements and require most attention when performing the audit. The matters determined to be key audit matters will be communicated in the Annual Audit Report.

17. In determining key audit matters, auditors consider:

- Areas of higher or significant risk of material misstatement.
- Areas where significant judgement is required, including accounting estimates that are subject to a high degree of estimation uncertainty.
- Significant events or transactions that occurred during the year.

Wider scope and Best Value

Introduction

18. Reflecting the fact that public money is involved, the Code of Audit Practice requires that public audit is planned and undertaken from a wider perspective than in the private sector. The wider scope audit set out by the Code of Audit Practice broadens the audit of the annual accounts to include consideration of additional aspects or risks in four wider scope areas.

19. Due to the nature and size of Lothian Valuation Joint Board and its limited financial activity, it is considered a less complex body for the wider scope audit. Therefore, the wider scope audit does not consider all four wider scope areas and is instead limited to concluding on the financial sustainability of the joint board.

20. Financial sustainability means looking forward over the medium and longer term in planning the services to be delivered and how they will be delivered effectively. This is assessed by considering LVJB's medium to longer-term planning for service delivery. A conclusion on the financial sustainability of the joint board will be reported in the Annual Audit Report.

Best Value

21. Under the Code of Audit Practice, the duty on auditors to consider the arrangements an audited body has in place to secure Best Value applies to audited bodies that fall within section 106 of the Local Government (Scotland) Act 1973, which LVJB does.

22. Consideration of the arrangements the joint board has in place to secure Best Value will be carried out alongside the wider scope audit, and a conclusion on the arrangements it has in place will be reported in the Annual Audit Report.

Significant wider scope and Best Value risks

23. The risk assessment process has identified significant risks in the wider scope areas and Best Value as outlined in Exhibit 4, and this includes the planned audit procedures in response to the risks.

Exhibit 3

Significant wider scope and Best Value risks

Description of risk	Planned audit response
<p>Financial sustainability</p> <p>The valuation board's main source of income is funding through requisitions from its constituent councils. In 2025/26, the joint board sought an increase of £0.278m (4.4%) to its requisition and a further increase of 2.9% has been budgeted for 2026/27.</p> <p>Without an increase in council requisitions, the valuation board forecasts a net shortfall of £0.364 million in 2026/27 rising to £0.757 million by 2028/29.</p> <p>There is a risk that in the medium term, the joint board is not able to secure further funding to fully meet cost pressures as they arise.</p>	<p>The audit team will:</p> <ul style="list-style-type: none"> • Ongoing review of financial budget monitoring and reporting arrangements in place to achieve a balanced budget.

Reporting arrangements, timetable and audit fee

Audit outputs

24. The outputs from the 2025/26 audit include:

- This Annual Audit Plan.
- An Independent Auditor's Report to the joint board and the Accounts Commission setting out opinions on the annual accounts.
- An Annual Audit Report to the joint board and the Accounts Commission setting out significant matters identified from the audit of the annual accounts, conclusions from the wider scope and Best Value audit, recommendations, where required, and any good practice identified.

25. The matters to be reported in the outputs will be discussed with the joint board for factual accuracy before they are issued. All outputs from the audit will be published on [Audit Scotland's website](#), apart from the Independent Auditor's Report, which is included in the audited annual accounts.

26. Target dates for the audit outputs are set by the Accounts Commission. In setting the target dates for the audit outputs, consideration is given to the target date for approving the annual accounts, which is 30 September 2026 for local government bodies.

27. The audit team will be unable to achieve the target date of 30 September 2026 for issuing the Independent Auditor's Report and Annual Audit Report. This is due to prioritising the quality of our audit work over meeting target dates, as required by the Accounts Commission, and consistent with messaging from the Financial Reporting Council which has made clear that audit quality takes precedence. The audit team are working towards completion of the audit by the later date of 17 November 2026 and are working towards delivering the audit by target dates over the course of the five-year audit appointment.

Audit timetable

28. Achieving the timetable for production of the annual accounts, supported by complete and accurate working papers, is critical to delivery of the audit to agreed target dates. [Exhibit](#) includes a timetable for the

audit, which has been agreed with management. Agreed target dates will be kept under review as the audit progresses, and any changes required, and their potential impact, will be discussed with Lothian Valuation Joint Board and reported to those charged with governance, where required.

Exhibit 4

2025/26 audit timetable

Audit activity	LVJB target date	Audit team target date	Relevant committee date
Issue of Annual Audit Plan		2 March 2026	16 March 2026
Annual accounts:			
• Consideration of unaudited annual accounts by those charged with governance	23 June 2026		23 June 2026
• Submission of unaudited annual accounts and all working papers to audit team	26 June 2026		
• Approval by those charged with governance and signing of audited annual accounts	17 November 2026		17 November 2026
• Signing of Independent Auditor's Report and issue of Annual Audit Report		17 November 2026	

Source: Audit Scotland

Audit fee

29. The joint board's audit fee is determined in line with Audit Scotland's fee setting arrangements. The proposed audit fee for the 2025/26 audit is £9,920.

30. In setting the audit fee, it is assumed that the joint board has effective governance arrangements in place and the complete annual accounts will be provided for audit in line with the agreed timetable. The audit fee assumes there will be no significant changes to the planned scope of the audit. Where the audit cannot proceed as planned, for example, due to incomplete or inadequate working papers, the audit fee may need to be increased.

Other matters

Internal audit

31. Lothian Valuation Joint Board is responsible for establishing an internal audit function as part of an effective system of internal control. As part of the audit, the audit team will obtain an understanding of internal audit, including its nature, responsibilities, and activities.

32. While we are not planning to place formal reliance on the work of internal audit in 2024/25, we will review internal audit reports and assess the impact of the findings on our financial statements and wider scope audit responsibilities.

Audit quality

33. Audit Scotland is committed to the consistent delivery of high-quality audit. Audit quality requires ongoing attention and improvement to keep pace with external and internal changes. Details of the arrangements in place for the delivery of high-quality audits is available from the [Audit Scotland website](#).

34. The International Standards on Quality Management (ISQM) applicable to Audit Scotland for 2025/26 audits are:

- ISQM (UK) 1, which deals with an audit organisation's responsibilities to design, implement, and operate a system of quality management (SoQM) for audits. Audit Scotland's SoQM consists of a variety of components, such as governance arrangements and culture to support audit quality, compliance with ethical requirements, ensuring Audit Scotland is dedicated to high-quality audit through engagement performance and resourcing arrangements, and ensuring there are robust quality monitoring arrangements in place. Audit Scotland carries out an annual evaluation of its SoQM and has concluded it complies with this standard.
- ISQM (UK) 2, which sets out arrangements for conducting engagement quality reviews, which are performed by senior management not involved in an audit, to review significant judgements and conclusions reached by the audit team, and the appropriateness of proposed audit opinions on high-risk audits.

35. To monitor quality at an individual audit level, Audit Scotland carries out internal quality reviews on a sample of audits. Additionally, the Institute

of Chartered Accountants of England and Wales (ICAEW) carries out independent quality reviews on a sample of audits.

36. Audit Scotland may periodically seek the views of the joint board on the quality of audit services provided. The audit team would also welcome feedback at any time.
