The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the organisation or all weaknesses in your internal controls. This report has been prepared solely for your benefit and Audit Scotland (under the Audit Scotland Code of Practice 2016). We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

# Plan overview

The audit plan for the financial year ended 31 March 2022 sets out our risk based audit approach. This plan is reported to those charged with governance (Pensions Committee). Planning is a continuous process and we will continue to review our risk assessment and planned approach.

## 03 Wider Scope Audit – smaller body arrangements

In accordance with Audit Scotland’s Code of Practice, we feel it is appropriate to continue to treat you as a smaller body under the Code. In 2021/22 we will consider the Pension Fund’s arrangements for ensuring financial sustainability as well as your governance arrangements in place to support disclosures contained within the annual governance statement included within your financial statements.

## 01 Materiality

We have calculated planning materiality for the Highland Council Pension Fund (‘the Pension Fund’) using prior year gross investment assets as our benchmark:

- £23.481 million planning materiality (1% gross investment assets)
- Performance materiality of £17.610 million (75% of planning materiality)
- Trivial is set at £250,000 (being maximum threshold prescribed by Audit Scotland).

## 04 Other audit matters

We summarise other audit matters for Audit Committee awareness. This includes:

- In accordance with the Code and planning guidance we also complete and submit a number of deliverables in year including sharing intelligence with Audit Scotland.
- Notifying audit Scotland of any identified frauds during the year.
- Consideration of going concern in accordance with Practice Note 10.

## 02 Financial statement audit risks

We have not yet concluded our audit risk assessment. However, based on our audit planning, in accordance with the ISAs (UK) and FRC Practice Note 10 we have identified the following significant financial statement audit risks:

- Management override of controls (ISA UK 240).
- Valuation of level 3 investments as at 31 March 2022.

Our final risk assessment will be included in the final audit plan.

## 05 Our Audit Fee

Audit fees were shared by Audit Scotland with the Pension Fund in December 2021. Our fee agreed with Management is £33,580. The fee includes £1,500 increase on the Audit Scotland baseline fee associated with additional audit work over complex investments. We reserve the right to review our fee during the audit should significant delays be encountered and/or new technical matters arise.

# Introduction

## Purpose

This document provides an overview of the planned scope and timing of the external audit of the Highland Council Pension Fund ('the Pension Fund') for the year ended 31 March 2022. This plan is reported to those charged with governance (the Pensions Committee) and issued to Audit Scotland by 31 March 2022.

We are appointed by the Accounts Commission as the external auditors of the Pension Fund or the 6 year period (2016/17 until 2021/22).

## Respective responsibilities

Audit Scotland has issued a document entitled Code of Audit Practice ('the Code') dated 2016 covering this audit appointment period. This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities, and that of the Pension Fund are summarised in Appendix 1 of this plan. We draw your attention to this and the Code.

## Scope of our audit

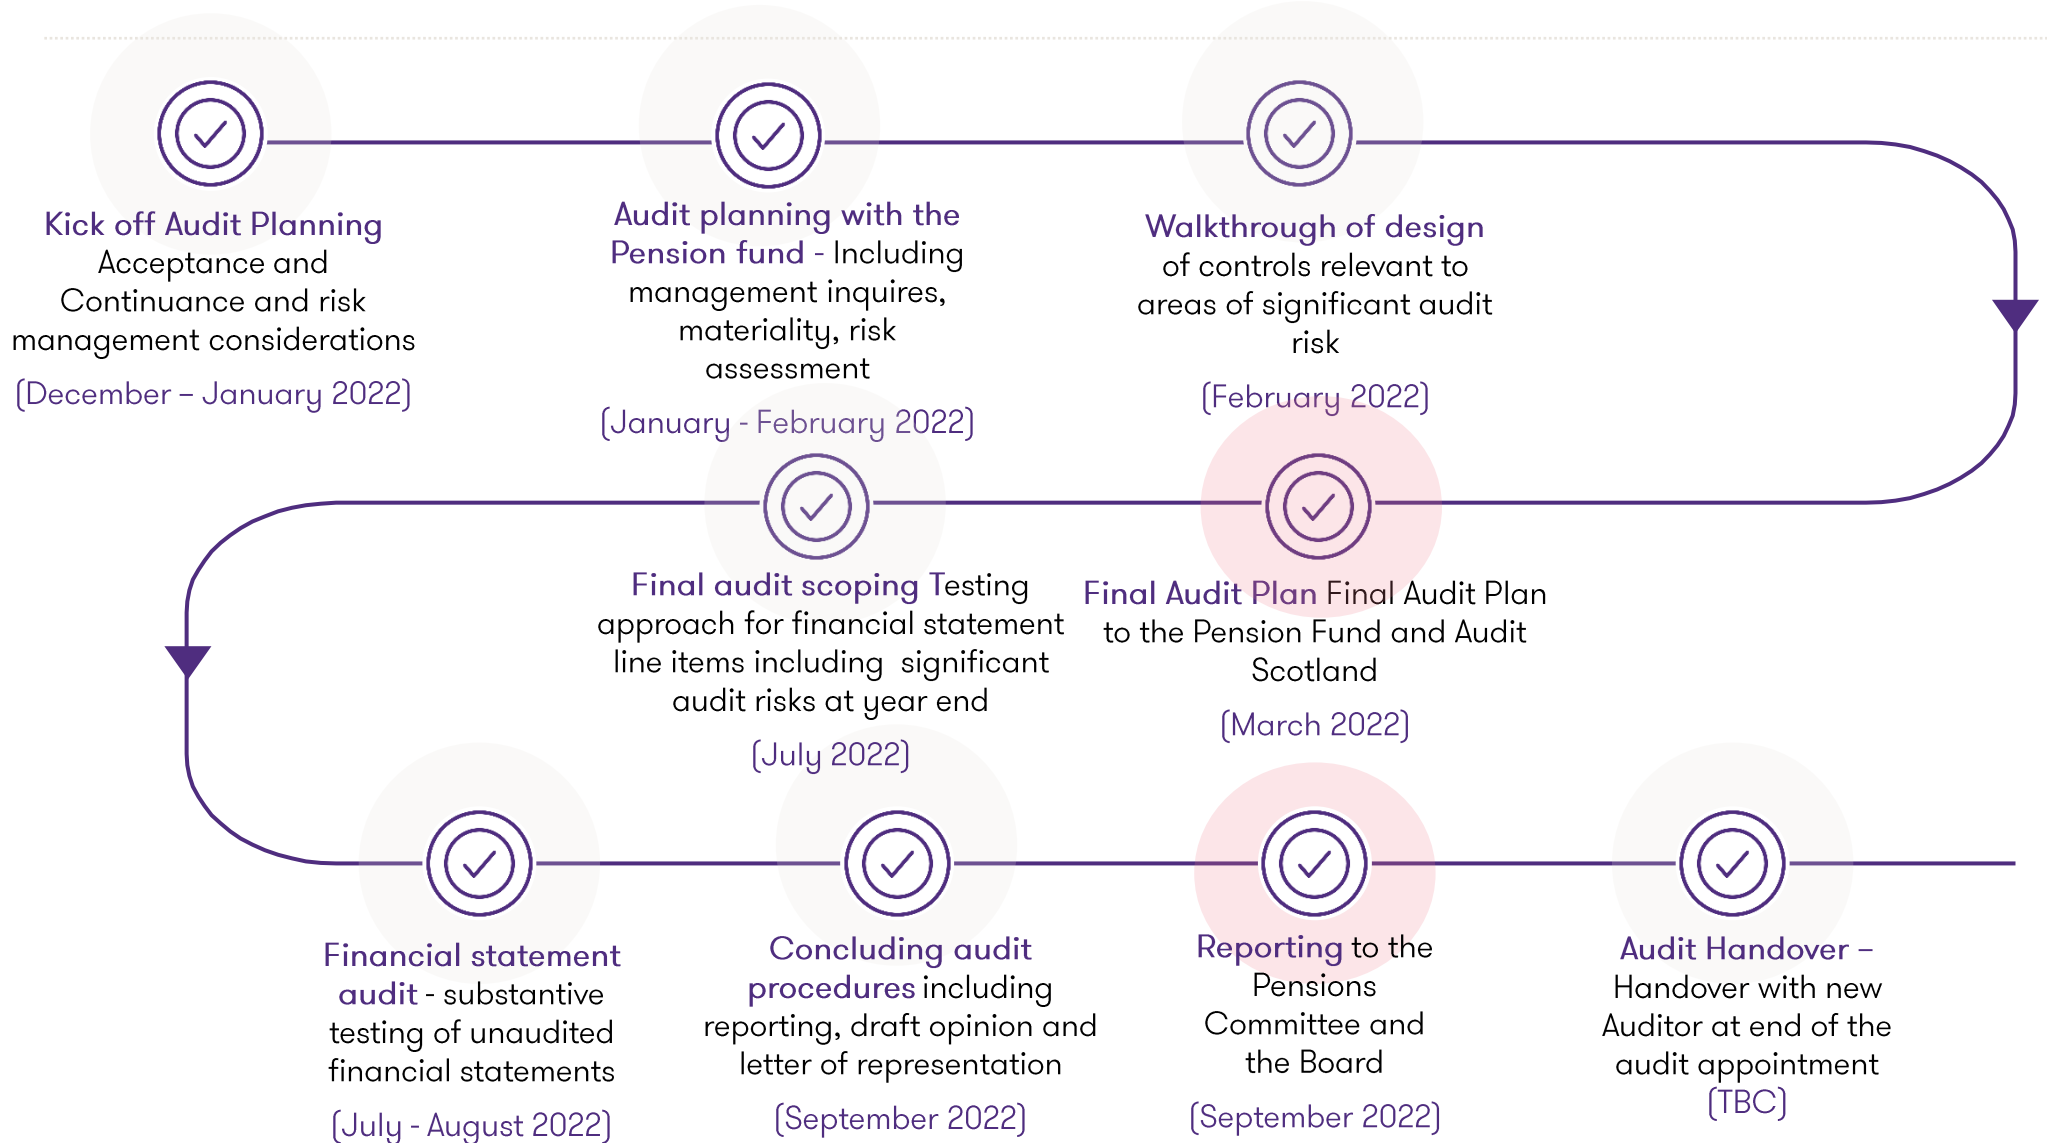

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund's financial statements that have been prepared by management (Senior Officers) with the oversight of those charged with governance (the Pensions Committee).

The audit of the financial statements does not relieve management or the Pensions Committee of your responsibilities. It is the responsibility of the Pension Fund to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We will consider how the Pension Fund is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Pension Fund and is risk based.

# Audit approach

# Materiality

Financial statement materiality is determined based on a proportion of the total operating expenditure. We have provisionally determined **planning materiality** to be £23.481 million, which equates to approximately 1% of your prior year gross investment assets.

**Performance materiality** represents the amount set for the financial statements as a whole to reduce the probability that the aggregate of uncorrected and undetected misstatements exceed materiality. We use this to determine our testing approach to the financial statements. We have provisionally set this at 75% of planning materiality (£17.610 million). This is based on our understanding of the Pension Fund including no material or unadjusted errors in the prior year.

Materiality reflects our professional judgement of the magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements.

Under ISA 260 (UK) 'Communication with those charged with governance', we are required by auditing standards to report uncorrected omissions or misstatements other than those which are '**clearly trivial**' to those charged with governance. We have determined this threshold to be £250,000 being 5% the maximum threshold set by Audit Scotland.

**We will update our materiality based on the unaudited 2021/22 financial statements. During the course of our audit engagement, we will continue to assess the appropriateness of our materiality.**

# Significant financial statement audit risks

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

## Valuation of Level 3 investments (valuation)

Under ISA 315 significant risks often relate to significant non-routine transactions and judgemental matters. Investments held by the Fund are subject to market price fluctuations and a degree of estimation. Investments are valued on a fair value hierarchy. Level 1 investments are those for which quoted market price information is available to validate fair value. Level 2 investment are these where there is no quoted market value but for which observable inputs are available based on information to support the valuation of investments. Subsequently, there is limited estimation or judgement in the valuation of these assets. Level 3 investments are those assets and liabilities at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data. As at 31 March 2021 the Pension Fund held £368 million of Level 3 investments. Of the level 3 investments, the Pension Fund held investments which given their nature and market conditions, contain increased levels of volatility in valuation. As a result we consider these assets to be of more significant risk of material misstatement. In addition, as at 31 March 2021, the Pension Fund held £15.574 million in equity options (derivatives), including complex derivatives. Given the judgement and complexity around the valuation of these investments we attach a significant risk of material misstatement. We therefore have significant risk of misstatement over:

- Pooled property valuations (valuation)
- Complex derivative investments (valuation)

**Our response:** We will gain an understanding of the Fund's process for valuing investments and evaluate the design of the associated controls. We will review the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investments. For a sample of investments, we will test to appropriate supporting information including observable market data, quoted prices and/or information to support carrying values. For complex derivative investments we will engage our auditor expert to ensure appropriately valued.

---

# Significant financial statement audit risks (continued)

---

## Management Override of Controls (as required within Auditing Standards – ISA 240)

Our risk focuses on the areas of the financial statements where there is potential for management to use their judgement to influence the financial statements alongside the potential to override the Pension Fund internal controls, related to individual transactions.

**Our response:** We will test the design of controls in place over journal entry processing and risk assess journals and select items for detailed follow up testing. Journals will entries will be selected using computer-assisted profiling based on areas which we consider to be of increased risk. For the Pension Fund, these would predominantly be material journals and those around the year end, particularly associated with pension asset valuations.

Our work focuses on critical estimates and judgements as set out within the financial statements, including accounting policies. In addition, we specifically consider valuations (investments) and the use of manual journals during the year, and in creating the financial statements where controls may be overridden by management. These are inherently the areas in which management has the potential to use their judgement to influence the financial statements. We will obtain an understanding of the business rationale of significant transactions that we become aware of that, based on our audit knowledge and understanding, are outside the normal course of business for the entity, or that otherwise appear to be unusual.

In accordance with International Standards on Auditing (ISA) 240, through our audit planning we have considered the presumed risk of fraud around **revenue recognition** at the Pension Fund. The Pension Fund's income is through contributions to the scheme and investment returns / income. Contributions receivable are well forecast and agreed to third party contributions. Therefore there is limited opportunity for material manipulation or misstatement of this revenue stream. Investment returns / income correlate to the overall movement in investments and agreed to Fund Manager confirmations. We therefore consider these to be of lower opportunity of material misstatement. We therefore rebut the assumed risk of fraud around revenue recognition.

**The findings on these areas as well as any other significant matters arising from the audit will be communicated to you in our Annual Report to those Charged with Governance and the Auditor General in concluding our audit in September 2022.**

# Other matters

## Auditor Responsibilities

We have a number of audit responsibilities as set out in the Code and planning guidance:

- We review the information given in the Management Commentary to ensure this is consistent with the financial statements and that report has been prepared in accordance with statutory guidance issued under the Local Government in Scotland Act 2003;
- We carry out work to satisfy ourselves that the information given in the Annual Governance Statement is consistent with the financial statements and that report has been prepared in accordance with the Delivering Good Governance in Local Government: Framework (2016); and
- We review the information given in the Governance Compliance Statement to ensure this is consistent with the financial statements that report has been prepared in accordance with The Local Government Pension Scheme (Scotland) Regulations 2018.
- We consider our other duties under the Code and planning guidance (2021/22), as and when required, including:
  - Providing regular updates to Audit Scotland to share awareness of current issues
  - Notifying Audit Scotland of any cases of money laundering or fraud
  - Review of Local Government (Including Pension Funds) Technical guidance prior to issue by Audit Scotland

## Internal control environment

Throughout our audit planning and fieldwork we will continue to develop our understanding of the overall control environment (design) as related to the financial statements. We consider the controls in operation at Highland Council, as administering authority of the Pension Fund. In particular we will:

- Consider procedures and controls around related parties, journal entries and other key entity level controls.
- Perform walkthrough procedures on key controls around identified risk areas including: Contributions receivable; benefits payable; transfers (in and out); investment returns/income; journal entries; and, material areas of management estimate and judgement including investment valuations and defined benefit pension scheme liabilities disclosures.
- Our focus is design and implementation of controls only. We do place reliance on controls when it comes to our year end financial statement audit work.

## Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

---

## Going concern assessment

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important.

In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. In considering going concern we will refer to Audit Scotland's Going Concern publication (December 2020).

Within our wider scope work we will conclude on the Pension Fund's arrangements to ensure financial sustainability.

## Wider Scope Audit – smaller body arrangements

For smaller bodies the Audit Scotland Code of Practice permits auditors to not apply the full wider scope audit. In our judgement, taking into account the nature of the Pension Fund's operating activity and income and expenditure streams, we feel it is appropriate to continue to treat you as a smaller body under the Code. However, in accordance with Audit Scotland planning guidance, we will update our understanding of your arrangements for ensuring financial sustainability as well as your governance arrangements in place to support disclosures contained within the annual governance statement included within your financial statements.

## Accounting estimates

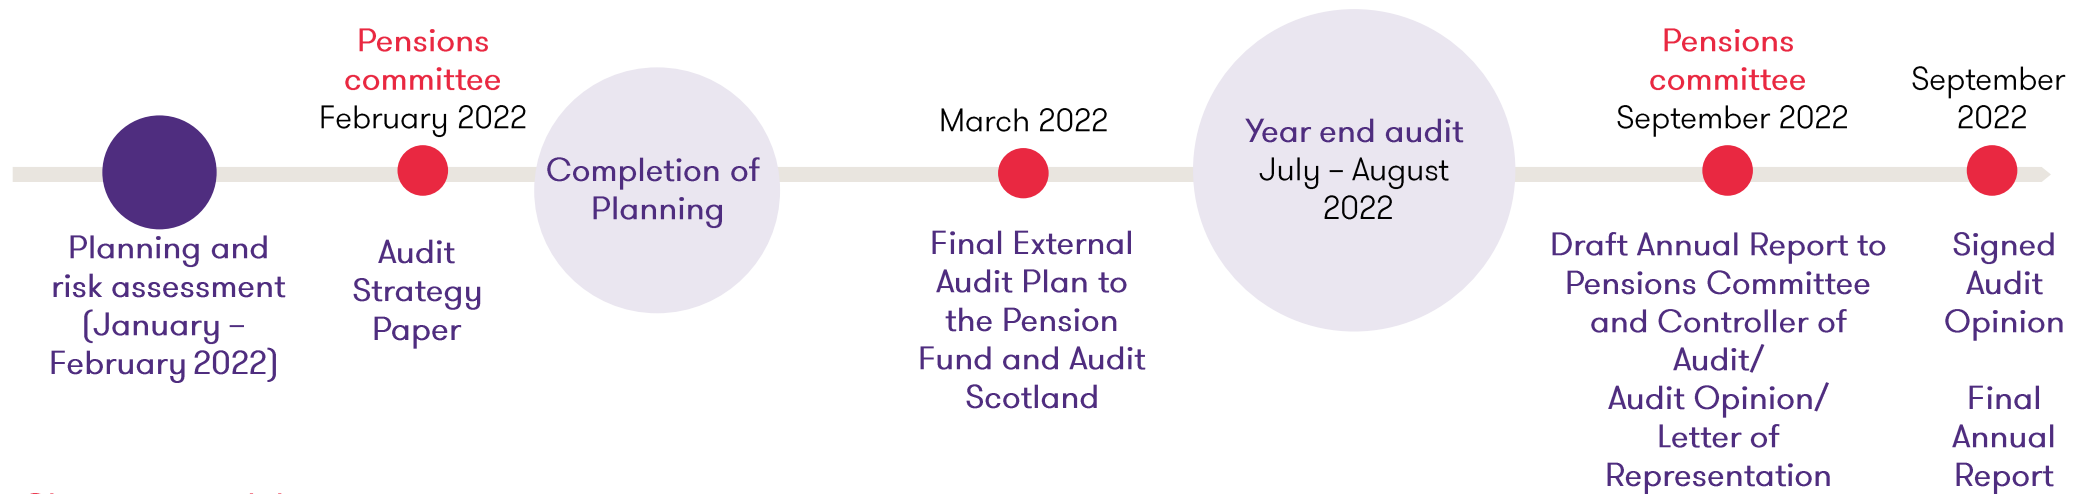

Under ISA (UK) 540 auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

To ensure compliance with this revised auditing standard, we will be requesting further information from management (officers) and those charged with governance during our audit. Based on our knowledge of the Pension Fund we have identified limited material accounting estimates for which this is likely to apply:

- defined benefit pension scheme liabilities (disclosures).
- Valuation of investments (level 2 and level 3).

# Audit timeline

## Client responsibilities

Where clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

## Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the Annual Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available (or as otherwise agreed) over the planned period of the audit
- respond promptly and adequately to audit queries.

# Quality and adding value through the audit

Our overall approach for the audit is clear and upfront communication, founded on our public sector credentials and a methodology to ensure delivery of a quality audit.

The diagram opposite summarises our key approach to adding value to you throughout our audit.

Our methodology is risk based. We comply with Auditing standards and as a Firm we are regulated by the FRC. We taking findings on audit quality seriously and continue to invest as a Firm through our audit investment plan. The audit investment plan is supported by a specific national Public Sector audit plan.

We comply with Audit Scotland's quality arrangements including submitting an annual quality report over our Audit Scotland portfolio. As part of Audit Scotland's quality arrangements, ICAS review our work on a rotational basis. Audit Scotland's quality report can be found at [www.audit-scotland.co.uk](http://www.audit-scotland.co.uk)

Our wider quality arrangements are set out in our annual transparency reports which are available on our website ([www.granthornton.co.uk](http://www.granthornton.co.uk)).

## Project management

- Use of Inflo to track progress and deliverables throughout the audit
- Clear roles and ownership of responsibilities within our team
- Clarity over expectations and timetable
- Track record delivering public sector audits on behalf of Audit Scotland

## Clear reporting

- Clear audit outputs at planning and within our final Annual Report
- Practical, risk based, recommendations for you to take forward
- Our judgements and conclusions set out transparently and in clear language
- Senior presence at Pensions Committees to present our findings and support wider dialogue

## Pragmatism and early attention of issues

- Accessible and proactive engagement team
- Working with you to reach the right solution – flexing the workplan, recognising Covid-19
- Audit director takes ultimate decision on technical matters, consulting with our technical experts

## Public sector understanding

- Using our public sector insight to inform our audit and identify improvements you could make
- Regular meetings throughout the year sharing our observations and wider sector knowledge
- Wider scope conclusions to support you in considering key risks and the improvement actions to take

# Audit Fees

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing. This includes the revised ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures.

As a firm, we are absolutely committed to meeting the expectations of the FRC over audit quality and public sector financial reporting. This includes, for Audit Scotland contracts, meeting the expectations of the Audit Scotland Quality Team and the ICAS quality framework.

Audit baseline fees were shared by Audit Scotland with the Pension Fund in December 2021. Audit Scotland guidance allows auditors to set fees up to 20% above baseline fee where risks or issues identified may require additional audit procedures to be undertaken. To meet auditing standards, particularly in relation to the valuation of complex investments, we anticipate additional audit work over key accounting estimates, including engagement with valuation specialists. We therefore have agreed with Management to increase the baseline fee by £1,500.

## Relevant professional standards

Audit Scotland set the baseline audit fee. We can increase the fee, from the baseline, for the inclusion of additional risks, new technical matters or specific client matters identified. We are required to consider all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's Ethical Standard (revised 2019) which state that the Engagement Lead must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

## Audit fees for 2021/22

Service	Fees £
External Auditor Remuneration	29,210
Pooled Costs	2,890
Contribution to Audit Scotland costs	1,480
Contribution to Performance Audit and Best Value	Nil
<b>2021/22 Fee</b>	<b>33,580</b>

## Additional Fees (Non-Audit Services)

Service	Fees £
At planning stage we confirm there are no non-audit fees	Nil

## Fee assumptions

In setting the fee for 2021/22 we have assumed that the Pension Fund will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made in preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

---

# Independence

---

## Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence.

We encourage you to contact us to discuss these or any other independence issues with us.

We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention.

We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard.

Our team complete annual fit and proper declarations including independence confirmations on a client by client basis as well as completing timesheets. The work of our Ethics team is overseen by the Ethics partner and all staff undergo ethics training in year.

# Appendices

---

# Responsibilities

---

The Code sets out auditor responsibilities and responsibilities of the audited body. Key responsibilities are summarised below. Please refer to the Code for further detail.

## Highland Council Pension Fund

Responsibilities include:

- Preparing financial statements that give a true and fair view
- Maintaining accounting records
- Establishing and maintaining systems of internal control
- Effective internal controls including controls to achieve objectives and secure value for money
- Establish arrangements for proper conduct of affairs including legality of transactions
- Arrangements for prevention and detection of fraud, error, irregularity, bribery and corruption
- Appropriate corporate governance arrangements and arrangements to monitor the effectiveness of governance

## External Audit

Responsibilities include:

- Comply with professional engagement and ethical standards
- Provide an ISA compliant audit and opinion on the financial statements including regularity of transactions
- Demonstrate compliance with the wider scope public audit as detailed in the Code and applicable guidance
- Liaise with and notify Audit Scotland when circumstances indicate a statutory report may be required. This includes sharing awareness of current and/or sector issues
- Notify Audit Scotland of any known or suspected frauds greater than £5,000
- Contribute to relevant performance studies (as set out in the planning guidance for the year)

# Communication

ISA (UK) 260 as well as other ISAS set out prescribed matters which we are required to report to those charged with governance (we assume this to be the Pensions Committee). Our reporting responsibilities are set out below. We communicate all matters affecting the audit on a timely basis, to Senior Officers and/or the Pensions Committee.

Our communication plan	Audit Plan	Annual Report (considered our ISA 260 Report)
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, including planning assessment of audit risks and wider scope risks	•	
Confirmation of independence and objectivity	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Views about the qualitative aspects of the Pension Fund's accounting and financial reporting practices, including accounting policies, accounting estimates and financial statement disclosures		•
Significant findings from the audit		•
Significant matters and issues arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud involving management and/or which results in material misstatement of the financial statements		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report or emphasis of matter		•

# Fraud responsibilities

The term fraud refers to intentional acts of one or more individuals amongst management, those charged with governance, employees or third parties involving the use of deception that result in a material misstatement of the financial statements. In assessing risks, the audit team is alert to the possibility of fraud at Highland Council Pension Fund.

As part of our audit work we are responsible for:

- identifying and assessing the risks of material misstatement of the financial statements due to fraud in particular in relations to management override of controls.
- leading a discussion with those charged of governance (for the Pension Fund this is assumed to be the Pensions Committee) on their view of fraud. Typically we do this when presenting our audit plan and in the form of management and those charged with governance questionnaires.
- designing and implementing appropriate audit testing to gain assurance over our assessed risks of fraud
- responding appropriately to any fraud or suspected fraud identified during the audit.

As auditors we obtain reasonable assurance the financial statements as a whole are free from material misstatement, whether due to fraud or error.

We will obtain annual representation from management regarding managements assessment of fraud risk, including internal controls, and any known or suspected fraud or misstatement. We also make inquires of internal audit around internal control, fraud risk and any known or suspected frauds in year.

The primary responsibility for the prevention and detection of fraud rests with management and those charged with governance including establishing and maintaining internal controls over the reliability of financial reporting effectiveness and efficiency of operations and compliance with applicable laws and regulations.

It is the Pension Fund's responsibility to establish arrangements to prevent and detect fraud and other irregularity. This includes:

- developing, promoting and monitoring compliance with standing orders and financial instructions
- developing and implementing strategies to prevent and detect fraud and other irregularity
- receiving and investigating alleged breaches of proper standards of financial conduct or fraud and irregularity.

Throughout the audit we work with the Pension Fund to review specific areas of fraud risk, including the operation of key financial controls. We also examine the policies in place, strategies, standing orders and financial instructions to ensure that they provide a strong framework of internal control.

All suspected frauds and/or irregularities over £5,000 are reported to Audit Scotland by us as your auditors on a quarterly basis.

### Anti-Money Laundering Arrangements

As required under the Money Laundering, Terrorist Financing and Transfer of Funds Regulations 2017 there is an obligation on the Auditor General (as set out in the planning guidance) to inform the National Crime Agency if he knows or suspects that any person has engaged in money laundering or terrorist financing. Should we be informed of any instances of money laundering at the Pension Fund we will report to the Auditor General as required by Audit Scotland.

# Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates. The first year this impacted on was the 2020/21 financial year.

## Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do the **Pensions Committee** members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

## Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting again this year further information from management and those charged with governance during our audit for the year ended 31 March 2022.

Based on our knowledge of the Pension Fund, in particular prior year, we have identified only two material accounting estimates being: level 2 and level 3 investments and defined benefit pension scheme liabilities (disclosure).

## The Pension Fund's Information systems

In respect of the Pension Fund's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change.

Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

# Auditing developments

There are changes to the following ISA (UK):

- ISA (UK) 315 (Revised July 2020) ‘Identifying and Assessing the Risks of Material Misstatement’ - This will impact audits of financial statement for periods commencing on or after 15 December 2021.
- ISA (UK) 240 (Revised May 2021) ‘The Auditor’s Responsibilities Relating to Fraud in an Audit of Financial Statements’ This will impact audits of financial statement for periods commencing on or after 15 December 2021.

A summary of the impact of the key changes on various aspects of the audit is included below:

Area of change	Impact of changes
Risk assessment	<ul style="list-style-type: none"> <li>• The nature, timing and extent of audit procedures performed in support of the audit opinion may change due to clarification of:               <ul style="list-style-type: none"> <li>• the risk assessment process, which provides the basis for the assessment of the risks of material misstatement and the design of audit procedures</li> <li>• the identification and extent of work effort needed for indirect and direct controls in the system of internal control</li> <li>• the controls for which design and implementation needs to be assess and how that impacts sampling</li> <li>• the considerations for using automated tools and techniques.</li> </ul> </li> </ul>
Direction, supervision and review of the engagement	<ul style="list-style-type: none"> <li>• Greater responsibilities, audit procedures and actions are assigned directly to the engagement lead, resulting in increased involvement in the performance and review of audit procedures.</li> </ul>
Professional scepticism	<ul style="list-style-type: none"> <li>• The design, nature, timing and extent of audit procedures performed in support of the audit opinion may change due to:               <ul style="list-style-type: none"> <li>• increased emphasis on the exercise of professional judgement and professional scepticism</li> <li>• an equal focus on both corroborative and contradictory information obtained and used in generating audit evidence</li> <li>• increased guidance on management and auditor bias</li> <li>• additional focus on the authenticity of information used as audit evidence</li> <li>• a focus on response to inquiries that appear implausible</li> </ul> </li> </ul>

Area of change	Impact of changes
Fraud	<ul style="list-style-type: none"> <li>• The design, nature timing and extent of audit procedures performed in support of the audit opinion may change due to:               <ul style="list-style-type: none"> <li>• clarification of the requirements relating to understanding fraud risk factors</li> <li>• additional communications with management or those charged with governance</li> </ul> </li> </ul>
Documentation	<ul style="list-style-type: none"> <li>• The amendments to these auditing standards will also result in additional documentation requirements to demonstrate how these requirements have been addressed.</li> </ul>
