24 April 2023

Dear Board Members

Audit Strategy Memorandum – Year ending 31 March 2023

We are pleased to present our Audit Strategy Memorandum for Dunbartonshire and Argyll and Bute Valuation Joint Board for the year ending 31 March 2023. The purpose of this document is to summarise our audit approach, highlight significant audit risks and areas of key judgements and provide you with the details of our audit team. As it is a fundamental requirement that an auditor is, and is seen to be, independent of its clients, section 7 of this document also summarises our considerations and conclusions on our independence as auditors. We consider two-way communication with you to be key to a successful audit and important in:

- reaching a mutual understanding of the scope of the audit and the responsibilities of each of us;
- sharing information to assist each of us to fulfil our respective responsibilities;
- providing you with constructive observations arising from the audit process; and
- ensuring that we, as external auditors, gain an understanding of your attitude and views in respect of the internal and external operational, financial, compliance and other risks facing Dunbartonshire and Argyll and Bute Valuation Joint Board which may affect the audit, including the likelihood of those risks materialising and how they are monitored and managed.

With that in mind, we see this document, which has been prepared following our initial planning discussions with management, as being the basis for a discussion around our audit approach, any questions, concerns or input you may have on our approach or role as auditor. This document also contains an appendix that outlines our key communications with you during the course of the audit, and explains the implications of the introduction of the new auditing standard for Identifying and assessing the risks of material misstatement: ISA (UK) 315 (Revised 2019).

Client service is extremely important to us and we strive to provide technical excellence with the highest level of service quality, together with continuous improvement to exceed your expectations so, if you have any concerns or comments about this document or audit approach, please contact me on 07816 354 994 or via tom.reid@mazars.co.uk.

Yours faithfully

Tom Reid (Audit Director)

Mazars LLP

Section 01:

**Engagement and
responsibilities summary**

1. Engagement and responsibilities summary

Overview of engagement

We are appointed to perform the external audit of Dunbartonshire and Argyll and Bute Valuation Joint Board (the VJB) for the year to 31 March 2023. The scope of our engagement is set out in the Code of Audit Practice, issued by the Auditor General and the Accounts Commission available from the Audit Scotland website: [Code of audit practice | Audit Scotland \(audit-scotland.gov.uk\)](https://www.audit-scotland.gov.uk). Our responsibilities are principally derived from the Local Government (Scotland) Act 1973 (the 1973 Act) and the Code of Audit Practice, as outlined below.

Audit opinion

We are responsible for forming and expressing an independent opinion on whether the financial statements are prepared, in all material respects, in accordance with all applicable statutory requirements. Our audit does not relieve management or the Board, as Those Charged With Governance, of their responsibilities.

The Treasurer is responsible for the assessment of whether it is appropriate for the VJB to prepare its accounts on a going concern basis. As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on: a) whether a material uncertainty related to going concern exists; and b) consider the appropriateness of the Treasurer's use of the going concern basis of accounting in the preparation of the financial statements.

Wider scope and Best Value

We are also responsible for reviewing and reporting on the wider scope arrangements that the VJB has in place and its arrangements to secure Best Value. We discuss our approach to wider scope and Best Value work further in [section 5] of this report.

Fraud

The responsibility for safeguarding assets and for the prevention and detection of fraud, error and non-compliance with law or regulations rests with both Those Charged With Governance and management. This includes establishing and maintaining internal controls over reliability of financial reporting.

As part of our audit procedures in relation to fraud we are required to enquire of Those Charged With Governance, including key management and Internal audit as to their knowledge of instances of fraud, the risk of fraud and their views on internal controls that mitigate the fraud risks. In accordance with International Standards on Auditing (UK), we plan and perform our audit so as to obtain reasonable assurance that the financial statements taken as a whole are free from material misstatement, whether caused by fraud or error. Our audit, however, should not be relied upon to identify all such misstatements.

03

Section 03:

Audit scope, approach and timeline

3. Audit scope, approach and timeline

Audit scope

Our audit approach is designed to provide an audit that complies with all professional requirements.

Our audit of the financial statements will be conducted in accordance with International Standards on Auditing (UK), relevant ethical and professional standards, our own audit approach and in accordance with the terms of our engagement. Our work is focused on those aspects of your activities which we consider to have a higher risk of material misstatement, such as those impacted by management judgement and estimation, application of new accounting standards, changes of accounting policy, changes to operations or areas which have been found to contain material errors in the past.

Audit approach

Our audit approach is risk-based and primarily driven by the issues that we consider lead to a higher risk of material misstatement of the accounts. Once we have completed our risk assessment, we develop our audit strategy and design audit procedures in response to the risks identified.

If we conclude that appropriately-designed controls are in place then we may plan to test and rely upon these controls. If we decide controls are not appropriately designed, or we decide it would be more efficient to do so, we may take a wholly substantive approach to our audit testing. Substantive procedures are audit procedures designed to detect material misstatements at the assertion level and comprise: tests of details (of classes of transactions, account balances, and disclosures); and substantive analytical procedures. Irrespective of the assessed risks of material misstatement, which take into account our evaluation of the operating effectiveness of controls, we are required to design and perform substantive procedures for each material class of transactions, account balance, and disclosure.

Our audit will be planned and performed so as to provide reasonable assurance that the financial statements are free from material misstatement and give a true and fair view. The concept of materiality and how we define a misstatement is explained in more detail in section 8.

The diagram on the next page outlines the procedures we perform at the different stages of the audit.

3. Audit scope, approach and timeline

Planning and Risk Assessment (January to April 2023)

- Planning visit and developing our understanding of the VJB
- Initial opinion and wider scope risk assessments
- Considering proposed accounting treatments and accounting policies
- Developing the audit strategy and planning the audit work to be performed
- Agreeing timetable and deadlines
- Risk assessment analytical procedures
- Determination of materiality

Completion (October 2023)

- Final review and disclosure checklist of financial statements
- Final director review
- Agreeing content of letter of representation
- Reporting to the Board
- Reviewing subsequent events
- Signing the independent auditor's report

Interim (March to June 2023)

- Documenting systems and controls
- Performing walkthroughs
- Reassessment of audit plan and revision if necessary

Fieldwork (July to October 2023)

- Receiving and reviewing draft financial statements
- Delivering our audit strategy starting with significant risks and high risk areas including detailed testing of transactions, account balances and disclosures
- Communicating progress and issues
- Clearance meeting

3. Audit scope, approach and timeline

Reliance on internal audit

Where possible we will seek to utilise the work performed by internal audit to modify the nature, extent and timing of our audit procedures. We will meet with internal audit to discuss the progress and findings of their work prior to the commencement of our controls evaluation procedures.

Where we intend to rely on the work of internal audit, we will evaluate the work performed by your internal audit team and perform our own audit procedures to determine its adequacy for our audit.

Management’s and our experts

Management makes use of experts in specific areas when preparing the VJB’s financial statements. We also use experts to assist us to obtain sufficient appropriate audit evidence on specific items of account.

Item of account	Management’s expert	Our expert
Defined benefit liability	Hymans Robertson (Strathclyde Pension Fund)	We make use of PwC actuarial services who are commissioned by the National Audit Office to review the national analysis of pension trends and assumptions of the various Local Government Pension Scheme actuaries.
Property, plant and equipment valuation	VJB’s external valuer (Gerald Eve)	We will review the analysis of property valuation movements available from third parties and consider the outcome of the VJB’s valuations in comparison with these, challenging conclusions as appropriate.

04

Section 04:

Significant risks and other key judgement areas

4. Significant risks and other key judgement areas

Following the risk assessment approach discussed in section 3 of this document, we have identified risks relevant to the audit of financial statements. The risks that we identify are categorised as significant, enhanced or standard. The definitions of the level of risk rating are given below:

Significant risk

Significant risks are those risks assessed as being close to the upper end of the spectrum of inherent risk, based on the combination of the likelihood of a misstatement occurring and the magnitude of any potential misstatement. Fraud risks are always assessed as significant risks as required by auditing standards, including management override of controls and revenue recognition.

Enhanced risk

An enhanced risk is an area of higher assessed risk of material misstatement at audit assertion level other than a significant risk. Enhanced risks require additional consideration but does not rise to the level of a significant risk, these include but may not be limited to:

- key areas of management judgement, including accounting estimates which are material but are not considered to give rise to a significant risk of material misstatement; and
- other audit assertion risks arising from significant events or transactions that occurred during the period.

Standard risk

This is related to relatively routine, non-complex transactions that tend to be subject to systematic processing and require little management judgement. Although it is considered that there is a risk of material misstatement (RMM), there are no elevated or special factors related to the nature, the likely magnitude of the potential misstatements or the likelihood of the risk occurring.

Summary risk assessment

The summary risk assessment, illustrated in the table below, highlights those risks which we deem to be significant and other enhanced risks in respect of the VJB. We have summarised our audit response to these risks on the next page.

4. Significant risks and other key judgement areas

Specific identified audit risks and planned testing strategy

We have presented below in more detail the reasons for the risk assessment highlighted above, and also our testing approach with respect to significant risks. An audit is a dynamic process, should we change our view of risk or approach to address the identified risks during the course of our audit, we will report this to the Board.

Significant risks

	Description	Fraud	Error	Judgement	Planned response
1	<p>Management override of controls This is a mandatory significant risk on all audits due to the unpredictable way in which such override could occur.</p> <p>Management at various levels within an organisation are in a unique position to perpetrate fraud because of their ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. Due to the unpredictable way in which such override could occur there is a risk of material misstatement due to fraud on all audits.</p>	●	○	○	<p>We plan to address the management override of controls by:</p> <ul style="list-style-type: none"> • reviewing the key areas within the financial statements where management has used judgement and estimation techniques and consider whether there is evidence of unfair bias; • testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in preparing the financial statements; and • considering and testing any significant transactions outside the normal course of business or otherwise unusual.

4. Significant risks and other key judgement areas

Significant risks

	Description	Fraud	Error	Judgement	Planned response
2	<p>Valuation of property, plant and equipment The VJB held land and buildings, with a net book value of £0.638 million as at 31 March 2022. The VJB has adopted a rolling revaluation model with an external valuer carrying out valuations of land and buildings on a five-year cycle. This may result in individual assets not being revalued for several years. This creates a risk that the carrying value of those assets that have not been revalued in year is materially different from the year end fair value.</p> <p>Valuations are based on specialist and management assumptions and changes in these can result in material changes to valuations. Due to the high degree of estimation uncertainty associated with valuations, we have determined there is a significant risk in this area.</p>	○	●	●	<p>We will evaluate the design and implementation of any controls which mitigate the risk. This includes liaising with management to update our understanding on the approach taken by the VJB in its valuation of land and buildings. We will:</p> <ul style="list-style-type: none"> • assess the scope and terms of engagement with the Valuer; • assess the competence, skills and objectivity of the Valuer; • assess how management use the Valuer’s report to value land and buildings included in the financial statements; • test the accuracy of the data used in valuations; • challenge the VJB and Valuer’s assumptions and judgements applied in the valuations; • review valuation methodology used, including the appropriateness of the valuation basis; and • consider the reasonableness of the valuation by comparing the valuation output with market intelligence. <p>We have also engaged the Mazars Real Estates Valuation team to assist us with the above.</p>

4. Significant risks and other key judgement areas

Significant risks

	Description	Fraud	Error	Judgement	Planned response
3	<p>Valuation of the net defined benefit liability/surplus</p> <p>The VJB had a net pension asset of £0.507 million at 31 March 2022. Estimation of the net pension asset or liability depends on several complex judgements which are sensitive to changes. These include the discount rate used, the rate at which salaries are predicted to increase, inflation rates and life expectancy. Due to the high degree of estimation uncertainty associated with the valuations, we have determined there is a significant risk in this area.</p>	○	●	●	<p>We will address this risk by reviewing the controls that the VJB has in place over the information sent to the Scheme Actuary by the fund administrators (Strathclyde Pension Fund).</p> <p>We will also:</p> <ul style="list-style-type: none"> • assess the skill, competence and experience of the Fund's actuary; • challenge the reasonableness of the assumptions used by the actuary as part of the annual IAS 19 valuation; • carry out a range of substantive procedures on relevant information and cash flows used by the actuary as part of the annual IAS 19 valuation.

05

Section 05:

Wider scope and Best Value

5. Wider scope and Best Value

The framework for wider scope work

The Code of Audit Practice sets out the four areas that frame the wider scope of public sector audit. We are required to form a view on the adequacy of the VJB's arrangements in four areas:

1. **Financial management**
2. **Financial sustainability**
3. **Vision, leadership, and governance**
4. **Use of resources to improve outcomes.**

Our approach

Our planned audit work against the four wider scope areas is risk based and proportionate. We need to gather sufficient evidence to support our commentary on the VJB's arrangements and to identify and report on any significant weaknesses. We will carry out more detailed work where we identify significant risks. Where significant weaknesses are identified we will report these to the Board and make recommendations for improvement. In addition to local risks, we consider challenges that are impacting the public sector as a whole.

The Code of Audit Practice permits an alternative audit approach where an audited body is considered less complex due its size and limited financial activity. The Code of Audit Practice supplementary guidance sets out the criteria for auditors to use to determine if a body is less complex and the audit approach to be adopted in such circumstances. We have concluded, based on our understanding of the VJB through our planning work, that it is a less complex body. This was also the judgement of the VJB's previous auditors, Audit Scotland.

We will therefore restrict our wider scope work to:

- a review of the Annual Governance Statement
- concluding on the financial sustainability of the VJB and the services that it delivers in the medium to longer term
- reporting on the arrangements for securing Best Value.

Financial management	<p>Financial management means having sound budgetary processes. Audited bodies require the ability to understand the financial environment and whether internal controls are operating effectively.</p> <p>Auditors consider whether the body has effective arrangements to secure sound financial management.</p>
Financial sustainability	<p>Financial sustainability means being able to meet the needs of the present without compromising the ability of future generations to meet their own needs.</p> <p>Auditors consider the extent to which audited bodies have shown regard to financial sustainability. They look ahead to the medium term (two to five years) and longer term (over five years) to consider whether the body is planning effectively so that it can continue to deliver services.</p>
Vision, leadership and governance	<p>Audited bodies must have a clear vision and strategy, and set priorities for improvement within this vision and strategy. They work together with partners and communities to improve outcomes and foster a culture of innovation.</p> <p>Auditors consider the clarity of plans to implement the vision, strategy and priorities adopted by the leaders of the audited body. They also consider the effectiveness of governance arrangements for delivery.</p>
Use of resources to improve outcomes	<p>Audited bodies need to make best use of their resources to meet stated outcomes and improvement objectives, through effective planning and working with strategic partners and communities.</p> <p>Auditors consider the clarity of the arrangements in place to ensure that resources are deployed to improve strategic outcomes, meet the needs of service users taking account of equalities, and deliver continuous improvements in priority services.</p>

06

Section 06:

Fees for audit and other services

6. Fees for audit and other services

Fees for work as the VJB's appointed auditor

At this stage of the audit we are not planning any divergence from the expected fees set by Audit Scotland. The breakdown of the fee is set out in the table below.

	2022/23 Proposed Fee	2021/22 Actual Fee
Auditor remuneration	£19,760	£6,750
Pooled costs	0	£700
Contribution to PABV costs	0	0
Audit support costs	£750	£360
Sectoral cap adjustment	(£11,720)	0
Total fee	£8,790	£7,810

We have taken account of the risk exposure of the VJB and the management assurances in place. We have assumed that the VJB has effective governance arrangements and will prepare comprehensive and accurate accounts and working papers for audit in line with the agreed timetable for the audit. We reserve the right to charge a supplementary fee where our audit cannot proceed as planned. An additional fee will be required for any other significant exercises not within our planned audit activity.

Section 07:

Our commitment to independence

7. Our commitment to independence

We are committed to independence and are required by the Financial Reporting Council to confirm to you at least annually in writing that we comply with the FRC’s Ethical Standard. In addition, we communicate any matters or relationship which we believe may have a bearing on our independence or the objectivity of the audit team.

Based on the information provided by you and our own internal procedures to safeguard our independence as auditors, we confirm that in our professional judgement there are no relationships between us and any of our related or subsidiary entities, and you and your related entities creating any unacceptable threats to our independence within the regulatory or professional requirements governing us as your auditors.

We have policies and procedures in place which are designed to ensure that we carry out our work with integrity, objectivity and independence. These policies include:

- all partners and staff are required to complete an annual independence declaration;
- all new partners and staff are required to complete an independence confirmation and also complete computer based ethical training;
- rotation policies covering audit engagement partners and other key members of the audit team; and
- use by managers and partners of our client and engagement acceptance system which requires all non-audit services to be approved in advance by the audit engagement partner.

We confirm, as at the date of this document, that the engagement team and others in the firm as appropriate, Mazars LLP are independent and comply with relevant ethical requirements. However, if at any time you have concerns or questions about our integrity, objectivity or independence please discuss these with Tom Reid in the first instance.

Prior to the provision of any non-audit services Tom Reid will undertake appropriate procedures to consider and fully assess the impact that providing the service may have on our auditor independence.

Any emerging independence threats and associated identified safeguards will be communicated in our Annual Audit Report.

08

Section 08:

Materiality and misstatements

8. Materiality and misstatements

Summary of initial materiality thresholds

Threshold	Initial threshold £'000s
Overall materiality	64
Performance materiality	45
We assess the Remuneration Report as sensitive given users' interest in this specific area. We are proposing to set materiality in this area at £1,000.	1
Trivial threshold for errors to be reported to the Board	2

Materiality

Materiality is an expression of the relative significance or importance of a particular matter in the context of financial statements as a whole.

Information is considered to be material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

Judgements on materiality are made in light of surrounding circumstances and are affected by the size and nature of a misstatement, or a combination of both. Judgements about materiality are based on consideration of the common financial information needs of users as a group and not on specific individual users.

The assessment of what is material is a matter of professional judgement and is affected by our perception of the financial information needs of the users of the financial statements. In making our assessment we assume that users:

- have a reasonable knowledge of business, economic activities and accounts;
- have a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented and audited to levels of materiality;
- recognise the uncertainties inherent in the measurement of amounts based on the use of estimates, judgement and the consideration of future events; and
- will make reasonable economic decisions on the basis of the information in the financial statements.

8. Materiality and misstatements

Materiality (continued)

We consider materiality whilst planning and performing our audit based on quantitative and qualitative factors.

Whilst planning, we make judgements about the size of misstatements which we consider to be material and which provides a basis for determining the nature, timing and extent of risk assessment procedures, identifying and assessing the risk of material misstatement and determining the nature, timing and extent of further audit procedures.

The materiality determined at the planning stage does not necessarily establish an amount below which uncorrected misstatements, either individually or in aggregate, will be considered as immaterial.

We revise materiality for the financial statements as our audit progresses should we become aware of information that would have caused us to determine a different amount had we been aware of that information at the planning stage.

Our provisional materiality is set based on a benchmark of gross revenue expenditure at surplus/deficit level. We will identify a figure for materiality but identify separate levels for procedures designed to detect individual errors, and also a level above which all identified errors will be reported to the Board.

We consider that gross revenue expenditure at surplus/deficit level remains the key focus of users of the financial statements and, as such, we base our materiality levels around this benchmark.

We expect to set a materiality threshold at 2% of gross revenue expenditure at surplus/deficit level. Based on the audited 2021/22 financial statements we anticipate the overall materiality for the year ending 31 March 2023 to be in the region of £64,000.

After setting initial materiality, we continue to monitor materiality throughout the audit to ensure that it is set at an appropriate level.

Performance Materiality

Performance materiality is the amount or amounts set by the auditor at less than materiality for the financial statements as a whole to reduce, to an appropriately low level, the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the financial statements as a whole. For a first-year audit, our initial assessment of performance materiality, based on low inherent risk, means that we have applied 70% of overall materiality as performance materiality.

Misstatements

We accumulate misstatements identified during the audit that are other than clearly trivial. We set a level of triviality for individual errors identified (a reporting threshold) for reporting to the Board that is consistent with the level of triviality that we consider would not need to be accumulated because we expect that the accumulation of such amounts would not have a material effect on the financial statements. Based on our preliminary assessment of overall materiality, our proposed triviality threshold is £2,000 based on 3% of overall materiality.

If you have any queries about this, please do not hesitate to raise these with Tom Reid.

Reporting to the Board

The following three types of audit differences above the trivial threshold will be presented to the Board:

- summary of adjusted audit differences;
- summary of unadjusted audit differences; and
- summary of disclosure differences (adjusted and unadjusted).

Appendices

A: Key communication points

B: Revised auditing standard on Identifying and assessing the risks of material misstatement: ISA (UK) 315 (Revised 2019)

Appendix A: Key communication points

We value communication with Those Charged With Governance as a two way feedback process at the heart of our client service commitment. ISA 260 (UK) 'Communication with Those Charged with Governance' and ISA 265 (UK) 'Communicating Deficiencies In Internal Control To Those Charged With Governance And Management' specifically require us to communicate a number of points with you.

Relevant points that need to be communicated with you at each stage of the audit are outlined below.

Form, timing and content of our communications

We will present the following reports:

- Audit Strategy Memorandum;
- Annual Annual Report

These documents will be discussed with management prior to being presented to yourselves and their comments will be incorporated as appropriate.

Key communication points at the planning stage as included in this Audit Strategy Memorandum

- Our responsibilities in relation to the audit of the financial statements.
- The planned scope and timing of the audit.
- Significant audit risks and areas of management judgement.
- Our commitment to independence.
- Responsibilities for preventing and detecting errors;

- Materiality and misstatements; and
- Fees for audit and other services.

Key communication points at the completion stage to be included in our Annual Audit Report

- Significant deficiencies in internal control.
- Significant findings from the audit.
- Significant matters discussed with management.
- Significant difficulties, if any, encountered during the audit.
- Qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures.
- Our conclusions on the significant audit risks and areas of management judgement.
- Summary of misstatements.
- Management representation letter.
- Our proposed draft audit report.
- Independence.

Appendix A: Key communication points

ISA (UK) 260 'Communication with Those Charged with Governance', ISA (UK) 265 'Communicating Deficiencies In Internal Control To Those Charged With Governance And Management' and other ISAs (UK) specifically require us to communicate the following:

Required communication	Where addressed
Our responsibilities in relation to the financial statement audit and those of management and those charged with governance.	Audit Strategy Memorandum
The planned scope and timing of the audit including any limitations, specifically including with respect to significant risks.	Audit Strategy Memorandum
With respect to misstatements: <ul style="list-style-type: none"> • uncorrected misstatements and their effect on our audit opinion; • the effect of uncorrected misstatements related to prior periods; • a request that any uncorrected misstatement is corrected; and • in writing, corrected misstatements that are significant. 	Annual Audit Report
With respect to fraud communications: <ul style="list-style-type: none"> • enquiries of the Board to determine whether they have a knowledge of any actual, suspected or alleged fraud affecting the entity; • any fraud that we have identified or information we have obtained that indicates that fraud may exist; and • a discussion of any other matters related to fraud. 	Annual Audit Report and discussion at Board, Audit planning and clearance meetings

Appendix A: Key communication points

Required communication	Where addressed
<p>Significant matters arising during the audit in connection with the entity’s related parties including, when applicable:</p> <ul style="list-style-type: none"> • non-disclosure by management; • inappropriate authorisation and approval of transactions; • disagreement over disclosures; • non-compliance with laws and regulations; and • difficulty in identifying the party that ultimately controls the entity. 	Annual Audit Report
<p>Significant findings from the audit including:</p> <ul style="list-style-type: none"> • our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures; • significant difficulties, if any, encountered during the audit; • significant matters, if any, arising from the audit that were discussed with management or were the subject of correspondence with management; • written representations that we are seeking; • expected modifications to the audit report; and • other matters, if any, significant to the oversight of the financial reporting process or otherwise identified in the course of the audit that we believe will be relevant to the Board in the context of fulfilling their responsibilities. 	Annual Audit Report
Significant deficiencies in internal controls identified during the audit.	Annual Audit Report
Where relevant, any issues identified with respect to authority to obtain external confirmations or inability to obtain relevant and reliable audit evidence from other procedures.	Annual Audit Report

Appendix A: Key communication points

Required communication	Where addressed
<p>Audit findings regarding non-compliance with laws and regulations where the non-compliance is material and believed to be intentional (subject to compliance with legislation on tipping off) and enquiry of the Board into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements and that the Board may be aware of.</p>	<p>Annual Audit Report and Board meetings</p>
<p>With respect to going concern, events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including:</p> <ul style="list-style-type: none"> • whether the events or conditions constitute a material uncertainty; • whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements; and • the adequacy of related disclosures in the financial statements. 	<p>Annual Audit Report</p>
<p>Reporting on the valuation methods applied to the various items in the annual financial statements including any impact of changes of such methods</p>	<p>Annual Audit Report</p>
<p>Indication of whether all requested explanations and documents were provided by the entity</p>	<p>Annual Audit Report</p>

Appendix B: Revised auditing standard on Identifying and assessing the risks of material misstatement: ISA (UK) 315 (Revised 2019)

Background

ISA (UK) 315 (Revised 2019) introduces major changes to the auditor's risk identification and assessment approach, which are intended to drive a more focused response from auditors undertaking work to obtain sufficient appropriate audit evidence to address the risks of material misstatement. The new standard is effective for periods commencing on or after 15 December 2021 and therefore applies in full for the VJB's 2022/23 audit.

The most significant changes relevant to the VJB's audit are outlined below.

Enhanced risk identification and assessment

The standard has enhanced the requirements for the auditor to understand the audited entity, its environment and the applicable financial reporting framework in order to identify and assess risk based on inherent risk factors which include:

- subjectivity;
- complexity;
- uncertainty and change; and
- susceptibility to misstatement due to management bias or fraud.

Using these inherent risk factors, we assess inherent risk on a spectrum, at which the higher end of which lies significant risks, to drive an audit that is more focused on identified risks. Auditors are now also required to obtain sufficient, appropriate evidence from these risk identification and assessment procedures which means documentation and evidence requirements are also enhanced.

Greater emphasis on understanding IT

In response to constantly evolving business environments, the standard places an increased emphasis on the requirements for the auditor to gain an understanding of the entity's IT environment to better understand the possible

risks within an entity's information systems. As a result, we are required to gain a greater understanding of the IT environment, including IT general controls (ITGCs).

Increased focus on controls

Building on the need for auditors to gain a greater understanding of the IT environment, the standard also widens the scope of controls that are deemed relevant to the audit. We are now required to broaden our understanding of controls implemented by management, including ITGCs, as well as assess the design and implementation of those controls.

Tom Reid (Audit Director)
